RE: AMMENDMENT of EA0002264

Dear DESI,

The purpose of this letter is to summarise the purpose for a licence amendment (minor).

Following a successful treatment trial and submission of external consultants reports, and following confirmation from DESI that all treatment trial licence conditions have been met, this licence amendment is to:

To remove trial conditions T1 to T20 (PFAS Treatment Trial) from EA0002264 and update Table 1 to include Waste Code M270 Treatment, by adding YES in "Treatment" column and by adding "Adsorption" into Solids. Sludges and Liquid Waste Treatment Technology columns.

Please feel free to contact me at any time if you have any questions.

Kind Regards,

Daniel Blair

General Manager
