Department of Environment and Resource Management

Registration certificate

Environmental Protection Act 1994

Registration certificate

No: ENRE00644707

This registration certificate is issued by the administering authority and takes effect from: 9 January 2012.

The anniversary day for the purposes of the Annual Return remains: 4 May.

This registration certificate is a requirement of section 73F of the *Environmental Protection Act 1994* and authorises the registered operator to undertake the activity listed below at the following place subject to the conditions set out in a development approval attached to the premises, or the relevant code of environmental compliance.

Registered Operator:-
Industrial Cleansers Pty Ltd
Unit 2a, 424 Bilsen Road
GEEBUNG QLD 4034

Development Approval: SR1268

Place:-
Lot 3 Plan RP99581

Located at:-
Unit 2a, 2b, 2c 428 Bilsen Road,GEEBUNG QLD 4034

Registered Activity:-
ERA 7 Chemical manufacturing Threshold 3(a) - manufacturing, in a year, a total of 200t or more of soap, surfactants or cleaning or toiletry products

Delegate
Department of Environment and Resource Management

Development Approval

Section 621(4) *Environmental Protection Act 1994*

EPA Development Application (Converted Development approval) number:	ENDC00644807 SR1268
Relevant Laws and Policies:	*Environmental Protection Act 1994* and subordinate legislation

Development Description:

Carrying out of Environmentally Relevant Activity (ERA):

ERA 6(a) - Chemical manufacturing, processing or mixing - manufacturing or processing an inorganic chemical, organic chemical or chemical product, or mixing inorganic chemicals, organic chemicals or chemical products (other than mixing non-combustible or non-flammable chemicals or chemical products by dilution with water), in a plant or works having a design production capacity of 200 tonnes or more but less than 20 000 tonnes per year.

at the following place:

Lot 3, RP99581, County of Stanley, Parish of Kedron.

located at: Units 1b1, 2a, 2b 2c
424 Bilsen Road
GEEBUNG QLD 4034

The environmentally relevant activity must be constructed, operated and maintained in accordance with the conditions as set out in the attached schedule of conditions.

Further development permits required

Nil

Additional information for applicants

This approval pursuant to the *Environmental Protection Act 1994* does not remove the need to obtain any further approval for this development which might be required by other State and/or Commonwealth legislation. Applicants are advised to check with all relevant statutory authorities. Applicants also should comply with all relevant legislation.

It is a requirement of the *Environmental Protection Act 1994* that if the owner or occupier of this site becomes aware a Notifiable Activity (as defined under schedule 2 of the *Environmental Protection Act 1994*) is being carried out on this land or that the land has been affected by a hazardous contaminant, they must, within 30 days after becoming aware the activity is being carried out, give notice to the Environmental Protection Agency. A list of Notifiable Activities is provided within Schedule 2 of the *Environmental Protection Act 1994*.

[1] Permit includes s, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation administered by the Environmental Protection Agency and the Queensland Parks and Wildlife Service

Abdu 27/7/07

Appeal

This development approval is issued pursuant to section 621 of the *Environmental Protection Act 1994*. The rights of review and appeal are attached to this notice.

This development approval takes effect 10 business days after you receive this notice, or if there is an appeal from the day the appeal is finally decided or is otherwise ended.

Lawrie Wade — Signed

Schedule of conditions

The aforementioned description of the ERA for which this authority is issued is simply a restatement of the activity as prescribed in the legislation at the time of issuing the authority. Where there is any conflict between the above description of the ERA for which this authority is issued and the conditions as specified in this authority as to the scale, intensity or manner of carrying out of the ERA, then such conditions prevail to the extent of the inconsistency.

This development approval consists of the following schedules -

Schedule A - General Conditions

Schedule B - Air

Schedule C - Water

Schedule D - Stormwater Management

Schedule E - Land Application

Schedule F - Noise

Schedule G - Waste Management

Schedule H - Monitoring and Reporting

Schedule I - Definitions

[1] Permit includes s, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation administered by the Environmental Protection Agency and the Queensland Parks and Wildlife Service

22/2/07

SCHEDULE A - GENERAL CONDITIONS

Display of Development Approval

(A1) A copy of this development approval must be kept in a location readily accessible to personnel carrying out the activity.

Records

(A2) Any record or document required to be kept by a condition of this development approval must be kept at the place to which this development approval relates for a period of at least five years and be available for examination by an authorised person. The record retention requirements of this condition will be satisfied if any daily and weekly records are kept for a period of at least three (3) years and these records are then kept in the form of annual summaries after that period.

(A3) Copies of any record required to be kept by a condition of this development approval must be provided to any authorised person or the administering authority on request.

Alterations

(A4) No change, replacement or operation of any plant or equipment is permitted if the change, replacement or operation of the plant or equipment increases, or is likely to substantially increase, the risk of environmental harm above that expressly provided by this development approval.

An example of a substantial increase in the risk of environmental harm is an increase of 10% or more in the quantity of the contaminant to be released into the environment.

End of Conditions for Schedule A

SCHEDULE B - AIR

Noxious or Offensive Odour

(B1) Notwithstanding any other condition of this development approval no release of contaminants from the place to which this development approval relates is to cause a noxious or offensive odour beyond the boundaries of the place to which this development approval relates.

(B2) Any spillages of material onto sealed areas, as a result of delivery or handling, must be cleaned up without delay into storage bins or other suitable receptacles.

End of Conditions for Schedule B

SCHEDULE C - WATER

Release of Contaminants to Waters

(C1) Contaminants must not be directly or indirectly released from the place to which this development approval relates to any waters or the bed and banks of any waters except:

(i) as permitted under the stormwater management schedule; or
(ii) to a sewer as permitted or otherwise agreed from time to time by the relevant Local Government.

End of Conditions for Schedule C

[1] Permit includes s, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation administered by the Environmental Protection Agency and the Queensland Parks and Wildlife Service

Andr 29/2/07

SCHEDULE D - STORMWATER MANAGEMENT

General

(D1) The maintenance and cleaning of vehicles and any other equipment or plant must be carried out in areas from where contaminants cannot be released into any waters, roadside gutter or stormwater drainage system.

(D2) Any spillage of wastes, contaminants or other materials must be cleaned up as quickly as practicable. Such spillages must not be cleaned up by hosing, sweeping or otherwise releasing such wastes, contaminants or material to any stormwater drainage system, roadside gutter or waters.

(D3) All empty drums must be stored on a concrete hardstand area with their closures in place.

End of Conditions for Schedule D

SCHEDULE E - LAND APPLICATION

Release of Contaminants to Land

(E1) There must be no release nor likelihood of release of any contaminants to land.

End of Conditions for Schedule E

SCHEDULE F - NOISE

Emission of Noise

(F1) In the event of a complaint about noise that constitutes annoyance being made to the administering authority, that the administering authority considers is not frivolous or vexatious, then the emission of noise from the place to which this development approval relates must not result in levels greater than those specified in Table 1 of the Noise Schedule.

SCHEDULE F - TABLE 1

Noise Level at a Noise Sensitive Place Measured as the Adjusted Maximum Sound Pressure Level $L_{Amax\ adj,\ T}$	Period
Background noise level plus 5 dB(A)	7 am - 6 pm
Background noise level plus 5 dB(A)	6 pm - 10 pm
Background noise level plus 3 dB(A)	10 pm - 7 am
Noise Limits at a Commercial Place Measured as the Adjusted Maximum Sound Pressure Level $L_{Amax\ adj,\ T}$	**Period**
Background noise level plus 10 dB(A)	7 am - 6 pm
Background noise level plus 10 dB(A)	6 pm - 10 pm
Background noise level plus 8 dB(A)	10 pm - 7 am

End of Conditions for Schedule F

[1] Permit includes s, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation administered by the Environmental Protection Agency and the Queensland Parks and Wildlife Service

Noe 22/2/07

SCHEDULE G - WASTE MANAGEMENT

General

(G1) The registered operator must not:

(i) burn waste at or on the place to which this development approval relates; nor
(ii) allow waste to burn or be burnt at or on the place to which this development approval relates; nor
(iii) remove waste from the place to which this development approval relates and burn such waste elsewhere.

Off Site Movement

(G2) Where regulated waste is removed from the place to which this development approval relates (other than by a release as permitted under another schedule of this development approval), the registered operator must monitor and keep records of the following:

(a) the date, quantity and type of waste removed; and
(b) name of the waste transporter and/or disposal operator that removed the waste; and
(c) the intended treatment/disposal destination of the waste.

(G3) Records of trade waste agreements must be made available for inspection on request.

(G4) An area must be set aside for the segregation and storage of recyclable solid wastes.

(G5) Where a no-cost recycling service is available, reasonable and practicable steps must be taken to ensure recyclable waste is not deposited in the general waste stream. Such steps may include, but not be limited to provision of receptacles; suitable signage; and promotion of awareness among staff of the recycling service.

Notification of Improper Disposal Of Regulated Waste

(G6) If the registered operator becomes aware that a person has removed regulated waste from the place to which this development approval relates and disposed of the regulated waste in a manner which is not authorised by this development approval or is improper or unlawful, then the registered operator must, as soon as practicable, notify the administering authority of all relevant facts, matters and circumstances known concerning the disposal.

(G7) All drums containing raw, regulated waste or processed materials must be sealed to prevent loss of contents or exposure of the contents to the atmosphere.

(G8) There must be no visible leakage of the contents from any waste container.

(G9) All waste residues arising from processing must be stored in a manner which ensures they are kept free of stormwater and other liquids at all times.

(G10) The registered operator must ensure that only a transporter possessing a current registration certificate granted by the administering authority for the transport of regulated waste shall be used for the removal of the approved waste from the facility.

(G11) The registered operator must co-operate with the transporter to ensure that loading operations are carried out in such a way as to prevent spillage of the regulated waste.

End of Conditions for Schedule G

[1] Permit includes s, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation administered by the Environmental Protection Agency and the Queensland Parks and Wildlife Service

Acc 27/2/07

SCHEDULE H - MONITORING AND REPORTING

Complaint Recording

(H1) All complaints received by the registered operator relating to releases of contaminants from operations at the place to which this development approval relates must be recorded and kept in a log book with the following details:

(i) time, date and nature of complaint;
(ii) type of communication (telephone, letter, personal etc.);
(iii) name, contact address and contact telephone number of complainant (Note: if the complainant does not wish to be identified then "Not identified" is to be recorded);
(iv) response and investigation undertaken as a result of the complaint;
(v) name of person responsible for investigating complaint; and
(vi) action taken as a result of the complaint investigation and signature of responsible person.

Noise Monitoring

(H2) For the purposes of checking compliance with condition F1, monitoring and recording of the noise levels from the activity/activities must be undertaken for the following descriptors, characteristics and conditions:

(i) $L_{Amax, Adj T}$;
(ii) $L_{Abg, T}$ or $L_{A90, T}$;
(iii) $L_{AN, T}$ (where N equals statistical levels of 1, 10, 50, 90 and 99);
(iv) $L_{pA T}$;
(v) $L_{Aeq, T}$;
(vi) The level and frequency of occurrence of impulsive or tonal noise;
(vii) Atmospheric conditions including temperature, relative humidity and wind speed and direction; and
(viii) Effects due to extraneous factors such as traffic noise.

(H3) The registered operator must monitor and record the noise levels to check compliance with the conditions of this development approval upon receipt of a written request from the administering authority to do so.

(H4) The method of measurement and reporting of noise levels must comply with the Department of Environment and Heritage Noise Measurement Manual, second edition, March 1995, or more recent additions or supplements to that document as become available.

(H5) The measurement and reporting of noise levels must be undertaken by a person or body possessing appropriate experience and qualifications to perform the required measurements.

Report Submission

(H6) The registered operator must ensure that the results of all monitoring performed in accordance with this development approval for the period covered by the return are submitted with the Annual Return.

Notification of Emergencies and Incidents

(H7) As soon as practicable after becoming aware of any emergency or incident which results in the release of contaminants not in accordance, or reasonably expected to be not in accordance with the conditions of this development approval, the registered operator must notify the administering authority of the release by telephone or facsimile.

[1] Permit includes s, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation administered by the Environmental Protection Agency and the Queensland Parks and Wildlife Service

Ted 27/2/07

(H8) The notification of emergencies or incidents as required by condition number H7 must include but not be limited to the following:

(i) the name of the registered operator;
(ii) the location of the emergency or incident;
(iii) the number of the development approval;
(iv) the name and telephone number of the designated contact person;
(v) the time of the release;
(vi) the time the registered operator became aware of the release;
(vii) the suspected cause of the release;
(viii) the environmental harm and or environmental nuisance caused, threatened, or suspected to be caused by the release; and
(ix) actions taken to prevent further any release and mitigate any environmental harm and or environmental nuisance caused by the release.

(H9) Not more than 14 days following the initial notification of an emergency or incident, the registered operator must provide written advice of the information supplied in accordance with condition number H8 in addition to:

(i) proposed actions to prevent a recurrence of the emergency or incident;
(ii) outcomes of actions taken at the time to prevent or minimise environmental harm and or environmental nuisance, and
(iii) the results of any environmental monitoring performed.

End of Conditions for Schedule H

[1] Permit includes s, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation administered by the Environmental Protection Agency and the Queensland Parks and Wildlife Service

Jodi 27/2/07

SCHEDULE I - DEFINITIONS

For the purposes of this development approval the following definitions apply:

Noise Definitions

(I1) "$L_{Amax\ adj,\ T}$" means the average maximum A-weighted sound pressure level, adjusted for noise character and measured over a time period of not less than 15 minutes, using Fast response.

(I2) "Background noise level" means either:

$L_{A90,\ T}$ being the A-weighted sound pressure level exceeded for 90 percent of the time period of not less than 15 minutes, using Fast response, or

$L_{Abg,\ T}$ being the arithmetic average of the minimum readings measured in the absence of the noise under investigation during a representative time period of not less than 15 minutes, using Fast response.

(I3) "Max $L_{pA,\ T}$" means the maximum A-weighted sound pressure level measured over a time period of not less than 15 minutes, using Fast response.

(I4) "noise sensitive place" means -
(a) a dwelling, mobile home or caravan park, residential marina or other residential premises; or
(b) a motel, hotel or hostel; or
(c) a kindergarten, school, university or other educational institution; or
(d) a medical centre or hospital; or
(e) a protected area; or
(f) a park or gardens.

(I5) "commercial place" means a place used as an office or for business or commercial purposes.

(I6) "annoyance". In determining what constitutes "annoyance" regard must be had to Australian Standard 1055.2 - 1989 Acoustics - Description and Measurement of Environmental Noise Part 2 Application to specific situations.

End of Conditions for Schedule I

Jade 29/2/07

Environmental Protection Act 1994

Licence No. SR1268

Section 45(1)

Under the provisions of the *Environmental Protection Act 1994* this environmental authority is issued:

To: Industrial Cleansers Pty Ltd

Address: Unit 2c, 424 Bilsen Road
GEEBUNG QLD 4034

In respect of carrying out the environmentally relevant activity/ies at the following place(s):

Lot 3, RP99581, County of Stanley, Parish of Kedron.

located at: Unit 2c, 424 Bilsen Road
GEEBUNG QLD 4034

ERA 6(a) - Chemical manufacturing, processing or mixing - manufacturing or processing an inorganic chemical, organic chemical or chemical product, or mixing inorganic chemicals, organic chemicals or chemical products (other than mixing non-combustible or non-flammable chemicals or chemical products by dilution with water), in a plant or works having a design production capacity of 200 tonnes or more but less than 20 000 tonnes per year.

This environmental authority is issued subject to the conditions set out in the schedules attached to this environmental authority.

This licence takes effect from 4 May 1999.

signed .....

R. Wolff
Regional Manager (Environment)
Delegate of Administering Authority
Environmental Protection Act (1994)

date 15/4/99

This environmental authority consists of the following schedules -

Schedule A - General Conditions

Schedule B - Air

Schedule C - Water

Schedule D - Stormwater Management

Schedule E - Land Application

Schedule F - Noise

Schedule G - Waste Management

Schedule H - Monitoring and Reporting

Schedule I - Definitions

SCHEDULE A - GENERAL CONDITIONS

Display of Environmental Authority

(A1) A copy of this environmental authority must be kept in a location readily accessible to personnel carrying out the activity.

Records

(A2) Any record or document required to be kept by a condition of this environmental authority must be kept at the licensed place for a period of at least five years and be available for examination by an authorised person. The record retention requirements of this condition will be satisfied if any daily and weekly records are kept for a period of at least three (3) years and these records are then kept in the form of annual summaries after that period.

(A3) Copies of any record required to be kept by a condition of this environmental authority must be provided to any authorised person or the administering authority on request.

Alterations

(A4) No change, replacement or operation of any plant or equipment is permitted if the change, replacement or operation of the plant or equipment increases, or is likely to substantially increase, the risk of environmental harm above that expressly provided by this environmental authority.

An example of a substantial increase in the risk of environmental harm is an increase of 10% or more in the quantity of the contaminant to be released into the environment.

End of Conditions for Schedule A

SCHEDULE B - AIR

Noxious or Offensive Odour

(B1) Notwithstanding any other condition of this environmental authority no release of contaminants from the licensed place is to cause a noxious or offensive odour beyond the boundaries of the licensed place.

(B2) Any spillages of material onto sealed areas, as a result of delivery or handling, must be cleaned up without delay into storage bins or other suitable receptacles.

End of Conditions for Schedule B

SCHEDULE C - WATER

Release of Contaminants to Waters

(C1) Contaminants must not be directly or indirectly released from the licensed place to any waters or the bed and banks of any waters except:

(i) as permitted under the stormwater management schedule; or
(ii) to a sewer as permitted or otherwise agreed from time to time by the relevant Local Government.

End of Conditions for Schedule C

SCHEDULE D - STORMWATER MANAGEMENT

General

(D1) The maintenance and cleaning of vehicles and any other equipment or plant must be carried out in areas from where contaminants cannot be released into any waters, roadside gutter or stormwater drainage system.

(D2) Any spillage of wastes, contaminants or other materials must be cleaned up as quickly as practicable. Such spillages must not be cleaned up by hosing, sweeping or otherwise releasing such wastes, contaminants or material to any stormwater drainage system, roadside gutter or waters.

(D3) All empty drums must be stored on a concrete hardstand area with their closures in place.

End of Conditions for Schedule D

SCHEDULE E - LAND APPLICATION

Release of Contaminants to Land

(E1) There must be no release nor likelihood of release of any contaminants to land.

End of Conditions for Schedule E

SCHEDULE F - NOISE

Emission of Noise

(F1) In the event of a complaint about noise that constitutes annoyance being made to the administering authority, that the administering authority considers is not frivolous or vexatious, then the emission of noise from the licensed place must not result in levels greater than those specified in Table 1 of the Noise Schedule.

SCHEDULE F - TABLE 1

Noise Level at a Noise Sensitive Place Measured as the Adjusted Maximum Sound Pressure Level $L_{Amax\ adj,\ T}$	Period
Background noise level plus 5 dB(A)	7 am - 6 pm
Background noise level plus 5 dB(A)	6 pm - 10 pm
Background noise level plus 3 dB(A)	10 pm - 7 am
Noise Limits at a Commercial Place Measured as the Adjusted Maximum Sound Pressure Level $L_{Amax\ adj,\ T}$	**Period**
Background noise level plus 10 dB(A)	7 am - 6 pm
Background noise level plus 10 dB(A)	6 pm - 10 pm
Background noise level plus 8 dB(A)	10 pm - 7 am

End of Conditions for Schedule F

SCHEDULE G - WASTE MANAGEMENT

General

(G1) The holder of this environmental authority must not:

(i) burn waste at or on the licensed place; nor
(ii) allow waste to burn or be burnt at or on the licensed place; nor
(iii) remove waste from the licensed place and burn such waste elsewhere.

Off Site Movement

(G2) Where regulated waste is removed from the licensed place (other than by a release as permitted under another schedule of this environmental authority), the holder of this environmental authority must monitor and keep records of the following:

(a) the date, quantity and type of waste removed; and
(b) name of the waste transporter and/or disposal operator that removed the waste; and
(c) the intended treatment/disposal destination of the waste.

(G3) Records of trade waste agreements must be made available for inspection on request.

(G4) An area must be set aside for the segregation and storage of recyclable solid wastes.

(G5) Where a no-cost recycling service is available, reasonable and practicable steps must be taken to ensure recyclable waste is not deposited in the general waste stream. Such steps may include, but not be limited to provision of receptacles; suitable signage; and promotion of awareness among staff of the recycling service.

Notification of Improper Disposal Of Regulated Waste

(G6) If the holder of this environmental authority becomes aware that a person has removed regulated waste from the licensed place and disposed of the regulated waste in a manner which is not authorised by this environmental authority or is improper or unlawful, then the holder of this environmental authority must, as soon as practicable, notify the administering authority of all relevant facts, matters and circumstances known concerning the disposal.

(G7) All drums containing raw, regulated waste or processed materials must be sealed to prevent loss of contents or exposure of the contents to the atmosphere.

(G8) There must be no visible leakage of the contents from any waste container.

(G9) All waste residues arising from processing must be stored in a manner which ensures they are kept free of stormwater and other liquids at all times.

(G10) The holder of this environmental authority must ensure that only a transporter possessing a current licence granted by the administering authority for the transport of regulated waste shall be used for the removal of the licensed waste from the facility.

(G11) The holder of this environmental authority must co-operate with the transporter to ensure that loading operations are carried out in such a way as to prevent spillage of the regulated waste.

End of Conditions for Schedule G

SCHEDULE H - MONITORING AND REPORTING

Complaint Recording

(H1) All complaints received by the holder of this environmental authority relating to releases of contaminants from operations at the licensed place must be recorded and kept in a log book with the following details:

(i) time, date and nature of complaint;
(ii) type of communication (telephone, letter, personal etc.);
(iii) name, contact address and contact telephone number of complainant (Note: if the complainant does not wish to be identified then "Not identified" is to be recorded);
(iv) response and investigation undertaken as a result of the complaint;
(v) name of person responsible for investigating complaint; and
(vi) action taken as a result of the complaint investigation and signature of responsible person.

Noise Monitoring

(H2) For the purposes of checking compliance with condition F1, monitoring and recording of the noise levels from the activity/activities must be undertaken for the following descriptors, characteristics and conditions:

(i) $L_{Amax,\ Adj\ T}$;
(ii) $L_{Abg,\ T}$ or $L_{A90,\ T}$;
(iii) $L_{AN,\ T}$ (where N equals statistical levels of 1, 10, 50, 90 and 99);
(iv) $L_{pA\ T}$;
(v) $L_{Aeq,\ T}$;
(vi) The level and frequency of occurrence of impulsive or tonal noise;
(vii) Atmospheric conditions including temperature, relative humidity and wind speed and direction; and
(viii) Effects due to extraneous factors such as traffic noise.

(H3) The holder of this environmental authority must monitor and record the noise levels to check compliance with the conditions of this authority upon receipt of a written request from the administering authority to do so.

(H4) The method of measurement and reporting of noise levels must comply with the Department of Environment and Heritage Noise Measurement Manual, second edition, March 1995, or more recent additions or supplements to that document as become available.

(H5) The measurement and reporting of noise levels must be undertaken by a person or body possessing appropriate experience and qualifications to perform the required measurements.

Report Submission

(H6) The holder of this environmental authority must ensure that the results of all monitoring performed in accordance with this environmental authority for the period covered by the return are submitted with the Annual Return.

Notification of Emergencies and Incidents

(H7) As soon as practicable after becoming aware of any emergency or incident which results in the release of contaminants not in accordance, or reasonably expected to be not in accordance with the conditions of this environmental authority, the holder of this environmental authority must notify the administering authority of the release by telephone or facsimile.

(H8) The notification of emergencies or incidents as required by condition number H7 must include but not be limited to the following:

(i) the name of the holder of the environmental authority;
(ii) the location of the emergency or incident;
(iii) the number of the environmental authority;
(iv) the name and telephone number of the designated contact person;
(v) the time of the release;
(vi) the time the holder of the environmental authority became aware of the release;
(vii) the suspected cause of the release;
(viii) the environmental harm and or environmental nuisance caused, threatened, or suspected to be caused by the release; and
(ix) actions taken to prevent further any release and mitigate any environmental harm and or environmental nuisance caused by the release.

(H9) Not more than 14 days following the initial notification of an emergency or incident, the holder of the environmental authority must provide written advice of the information supplied in accordance with condition number H8 in addition to:

(i) proposed actions to prevent a recurrence of the emergency or incident;
(ii) outcomes of actions taken at the time to prevent or minimise environmental harm and or environmental nuisance, and
(iii) the results of any environmental monitoring performed.

End of Conditions for Schedule H

SCHEDULE I - DEFINITIONS

For the purposes of this environmental authority the following definitions apply:

Noise Definitions

(I1) "$L_{Amax\ adj,\ T}$" means the average maximum A-weighted sound pressure level, adjusted for noise character and measured over a time period of not less than 15 minutes, using Fast response.

(I2) "Background noise level" means either:

$L_{A90,\ T}$ being the A-weighted sound pressure level exceeded for 90 percent of the time period of not less than 15 minutes, using Fast response, or

$L_{Abg,\ T}$ being the arithmetic average of the minimum readings measured in the absence of the noise under investigation during a representative time period of not less than 15 minutes, using Fast response.

(I3) "Max $L_{pA,\ T}$" means the maximum A-weighted sound pressure level measured over a time period of not less than 15 minutes, using Fast response.

(I4) "noise sensitive place" means -
- (a) a dwelling, mobile home or caravan park, residential marina or other residential premises; or
- (b) a motel, hotel or hostel; or
- (c) a kindergarten, school, university or other educational institution; or
- (d) a medical centre or hospital; or
- (e) a protected area; or
- (f) a park or gardens.

(I5) "commercial place" means a place used as an office or for business or commercial purposes.

(I6) "annoyance". In determining what constitutes "annoyance" regard must be had to Australian Standard 1055.2 - 1989 Acoustics - Description and Measurement of Environmental Noise Part 2 Application to specific situations.

End of Conditions for Schedule I
