Certificate of Registration

No: ENRE00941709

This certificate is issued by the Department of Environment and Resource Management.

The certificate takes effect from 02/09/2009.

The anniversary day for the purpose of the Annual Return is 16 September each year.

This registration certificate is a requirement of section 73F of the *Environmental Protection Act 1994* and authorises the registered operator to undertake the activity/ies listed below at the following place/places subject to the registered operator holding a current development approval for the activity/ies stated to be carried out at the place/places as stated in this certificate, or the relevant code of environmental compliance.

TAKE NOTICE: The granting of this registration certificate does not exempt the registered operator from the need to obtain such other approvals as may be required under other legislation.

Registered Operator:
Chazlake Pty Ltd
Level 16, 120 Edward Street
BRISBANE QLD 4000

Registered Location & Activities:

Notice of decision — Change to an existing approval

This notice is issued by the Environmental Protection Agency pursuant to Section 3.5.33 of the Integrated Planning Act 1997 *to advise of a decision or action.*

Great Barrier Reef Shrimp Hatcheries Pty Ltd
PO Box 209
MISSION BEACH QLD 4852

Your reference :

Our reference : CNS1114

Attention: Salvatore Guiseppe Sciacca,

Re: Application to change or cancel a condition of your development approval permit number 5010000068.

The Environmental Protection Agency (EPA), acting as assessment manager, wishes to advise that your application to change or cancel a condition of your existing development approval number 5010000068, received on 22 June 2004, has been assessed, and on 29 April 2005 was granted.

1. Your application requested:

Change the following conditions:

SCHEDULE C - WATER

General

(C1) Within three (3) months of the date this environmental authority takes effect, the holder of this environmental authority shall carry out appropriate works to hydrologically isolate the barramundi dam (as identified condition (J1), Schedule J) from the surrounding watertable.

Release of Contaminants to Waters

(C2) When the barramundi dam is either unavailable or unserviceable, wastewater from the hatchery may be directed into Muff Creek without going via that dam.

Environmental Protection Agency
www.epa.qld.gov.au ABN 87 221 158 786

Queensland Government
Environmental Protection Agency
Queensland Parks and Wildlife Service

Release Points

(C4) Contaminants must not be directly or indirectly released from any source on the licensed place to any waters at any location other than the contaminants and sources at the locations listed below:

Release Point W1 - wastewaters from the hatchery, via the barramundi dam, to waters described as Muff Creek at AMTD 1 km.

(C5) The only contaminants permitted to be released from the licensed place at the Release Point W1 are wastewater discharges from the hatchery via the barramundi dam.

Sampling and Monitoring Point Details

(H2) Determinations of the quality of contaminants released to waters to check conformity with the release quality characteristics specified in the water schedule of this environmental authority must be undertaken at the sampling and measurement point described as the barramundi dam.

Report Submission

(H5) The results of the barramundi dam discharge monitoring program must be submitted to the administering authority in a report within three (3) weeks of sampling.

SCHEDULE J - SITE PLAN

(J1) **Release Point W1**

2. The details of the original approval were:

Property/Location:

Street address - Figtree Beach Road
FIGTREE BEACH QLD 4852

Lot/Plan - Lot 440, RP846527

3. Your application has been approved to the extent detailed below:

SCHEDULE C - WATER

General

(C1) Within three (3) months of the date this environmental authority takes effect, the holder of this environmental authority shall carry out appropriate works to hydrologically isolate the settlement pond (as identified condition (J1), Schedule J) from the surrounding watertable.

Release of Contaminants to Waters

(C2) When the settlement pond is either unavailable or unserviceable, wastewater from the hatchery may be directed into Maria Creek without going via that pond.

Release Points

(C4) Contaminants must not be directly or indirectly released from any source on the licensed place to any waters at any location other than the contaminants and sources at the locations listed below:

Release Point W1 - wastewaters from the hatchery, via the settlement pond, to waters described as Maria Creek at the following co-ordinates:

S 17° 53' 23.1"
E 145° 55' 43.1"

(C5) The only contaminants permitted to be released from the licensed place at the Release Point W1 are wastewater discharges from the hatchery via the settlement pond.

SCHEDULE H - MONITORING AND REPORTING

Sampling and Monitoring Point Details

(H2) Determinations of the quality of contaminants released to waters to check conformity with the release quality characteristics specified in the water schedule of this environmental authority must be undertaken at the sampling and measurement point described as the settlement pond.

Report Submission

(H5) The results of the settlement pond discharge monitoring program must be submitted to the administering authority in a report within three (3) weeks of sampling.

SCHEDULE J - SITE PLAN

(J1) **Release Point W1** (adjusted site plan attached)

The approved plans

The approved plans and/or documents for this approval are listed in the following table –

Plan/Document No.	Plan/Document Name	Date
"A"	Amended Site Plan	12 May 2004

4. IDAS Referral Agencies

The IDAS concurrence agencies and their responses to the application (attached) are:

Concurrence Agency: Nil

Review and appeal processes may be available to the applicant in regard to this decision. An extract from the *Integrated Planning Act 1997* is contained in the attached information sheet. This information sheet details your appeal rights regarding this decision. The applicant should seek independent advice to confirm the procedures available.

Please retain this documentation for your records.

If you require more information, please contact the Project Manager, Neil Maver, on the telephone number listed at the bottom of this notice.

Yours sincerely

Environmental Protection Act 1994

Licence No. 5010000068 (Amended)

Section 45(1)

Under the provisions of the *Environmental Protection Act 1994* this Environmental Authority is issued:

To: Great Barrier Reef Shrimp Hatcheries Pty Ltd
Address: PO Box 209
MISSION BEACH QLD 4852

in respect of carrying out the environmentally relevant activity/ies at the following place(s):

Great Barrier Reef Shrimp Hatcheries
Lot 440, RP846527
Parish of Hull, County of Nares
located at:
Figtree Beach Road
FIGTREE BEACH QLD 4852

– ERA 1(b) Aquaculture - less than 5 hectares, wastes released

This environmental authority is issued subject to the conditions set out in the schedules attached to this environmental authority.

This amended licence takes effect from 8 December 1999.

Section 45(1)

Env. Authority Holder
Great Barrier Reef Shrimp Hatcheries Pty Ltd

COPY

SCHEDULE A - GENERAL CONDITIONS

(A1) In carrying out the environmentally relevant activity, the holder of this environmental authority must take all reasonable and practical measures to minimise releases and the likelihood of releases of contaminants to the environment, except as otherwise provided by the conditions of this environmental authority.

(A2) The holder of this environmental authority must:

(a) install and operate all works and control equipment, and

(b) take all measures, perform all acts and do all things,

necessary to ensure compliance with the conditions of this environmental authority.

Display of Environmental Authority

(A3) A copy of this environmental authority must be kept in a location readily accessible to personnel carrying out the activity.

Records

(A4) Any record or document required to be kept by a condition of this environmental authority must be kept at the licensed place for a period of at least five (5) years and be available for examination by an authorised person.

(A5) Copies of any record required to be kept by a condition of this environmental authority must be provided to any authorised person or the administering authority on request.

Alterations

(A6) No change, replacement or operation of any plant or equipment is permitted if the change, replacement or operation of the plant or equipment increases, or is likely to substantially increase, the risk of environmental harm above that expressly provided by this environmental authority.

Calibration

(A7) All instruments and devices used for the measurement or monitoring of any parameter under any condition of this environmental authority must be calibrated, and appropriately operated and maintained.

END OF CONDITIONS FOR SCHEDULE A

SCHEDULE B - AIR

(B1) Nil conditions.

END OF CONDITIONS FOR SCHEDULE B

SCHEDULE C - WATER

General

(C1) Within three (3) months of the date this environmental authority takes effect, the holder of this environmental authority shall carry out appropriate works to hydrologically isolate the barramundi dam (as identified condition (J1), Schedule J) from the surrounding watertable.

Release of Contaminants to Waters

(C2) When the barramundi dam is either unavailable or unserviceable, wastewater from the hatchery may be directed into Muff Creek without going via that dam.

Release Points

(C3) Contaminants must not be directly or indirectly released from the licensed place to any waters or the bed and banks of any waters except as permitted under the water schedule.

(C4) Contaminants must not be directly or indirectly released from any source on the licensed place to any waters at any location other than the contaminants and sources at the locations listed below:

Release Point W1 - wastewaters from the hatchery, via the barramundi dam, to waters described as Muff Creek at AMTD 1 km.

(C5) The only contaminants permitted to be released from the licensed place at the Release Point W1 are wastewater discharges from the hatchery via the barramundi dam.

Quantity of Contaminants Released

(C6) The total quantity of contaminants released from Release Point W1 during any day must not exceed twelve (12) cubic metres.

Quality Characteristics Of Release to Waters

(C7) The release of contaminants to waters must comply, at the sampling and in situ measurement point specified in Schedule H, with each of the limits specified in Schedule C Table 1 for each quality characteristic.

COPY

SCHEDULE C - TABLE 1

Release Quality Characteristic Limits

QUALITY CHARACTERISTICS	RELEASE POINT NUMBER	RELEASE LIMIT	LIMIT TYPE
Suspended Solids (mg/l)	W1	50 100	Median Maximum
pH (pH Units)	W1	6.5-8.7	Range
Total Nitrogen (mg/l)	W1	2.0 5.0	Median Maximum
Chlorophyll 'a' (µg/l)	W1	50 100	Median Maximum
Total Phosphorus as P (mg/l)	W1	0.2 0.6	Median Maximum
