

Registration certificate

Environmental Protection Act 1994

Registration certificate

No: ENRE00926909

This registration certificate is issued by the administering authority and is a replacement document for the original approval issued on: 24-JULY-2001.

The anniversary day for the purposes of the Annual Return remains: 24-JULY.

This registration certificate is a requirement of section 73F of the *Environmental Protection Act 1994* and authorises the registered operator to undertake the activity listed below at the following place; subject to the conditions set out in a development approval attached to the premises, or the relevant code of environmental compliance.

Registered Operator:-

Luxury Yacht Refinishers Pty Ltd
23-25 Fearnley Street
CAIRNS QLD 4870

Development Approval Number:-

IPDE02281310 (Formerly FN0474)

Place:-

No fixed place. The activity is a mobile and temporary activity as defined in Schedule 4 of the Environmental Protection Act 1994.

Located at:-

Various locations throughout the state of Queensland.

Registered Activity:-

ERA 38 Surface coating Threshold 2(b) - coating, painting or powder coating, using, in a year, more than 100t of surface coating materials

Licence No. FN0474
(without development approval)
Section 93 Environmental Protection Act 1994

COPY

This licence to carry out an environmental relevant activity is issued in accordance with section 93 of the Environmental Protection Act 1994

Under the provisions of the
Environmental Protection Act 1994 this licence is issued to:

Luxury Yacht Refinishers Pty Ltd
60-92 Cook Street
PORTSMITH Q 4870

in respect of carrying out the environmental relevant activity:

25(b) Metal surface coating - Commercial spray painting (other than spray painting motor vehicles), powder coating, enamelling, electroplating, anodising or galvanising in works having an annual throughput of metal products of 2 000 t or more but less than 10 000 t

at the following place(s):

Itinerant.

located at:

Itinerant.

DESPATCHED
25 JUL 2001
Reg Mail No: RL18492897

This licence is subject to the conditions set out in the attached schedules.

The anniversary date of this licence is 24 July.

This licence takes effect from 24 July 2001.

Signed

24 July 2001

Date

Rob Lawrence
District Manager
Cairns District, Northern Region
Delegate of Administering Authority
Environmental Protection Act 1994

Note: This licence document is not proof of the current status of the licence. The current status of the licence may be ascertained by contacting the Environmental Protection Agency.

ENVIRONMENTAL PROTECTION ACT 1994

Schedule of conditions

The aforementioned description of the ERA for which this authority is issued is simply a restatement of the activity as prescribed in the legislation at the time of issuing the authority. Where there is any conflict between the above description of the ERA for which this authority is issued and the conditions as specified in this authority as to the scale, intensity or manner of carrying out of the ERA, then such conditions prevail to the extent of the inconsistency.

This licence incorporates the following schedules of conditions relevant to various issues:

- Schedule A - General conditions
- Schedule B - Air
- Schedule C - Water
- Schedule D - Stormwater management
- Schedule E - Land application
- Schedule F - Noise
- Schedule G - Waste management
- Schedule H - Self monitoring and reporting
- Schedule I - Definitions
- Schedule J - Site plans

Schedule A - General conditions

The following conditions are prescribed:

- (A1) The holder of this environmental authority shall ensure that any person responsible for the carrying out of the environmentally relevant activities is familiar with the conditions of this environmental authority as they relate to the person's responsibilities.

Records

- (A2) Any record or document required to be kept by a condition of this environmental authority must be kept at 60-92 Cook Street, Portsmouth for a period of at least five (5) years and be available for examination by an authorised person.

Alterations to Vehicle or Equipment

- (A3) No change, replacement or operation of any plant or equipment is permitted if the change, replacement or operation of the plant or equipment increases, or is likely to substantially increase, the risk of environmental harm above that expressly provided by this environmental authority.

An example of a substantial increase in the risk of environmental harm is an increase of 10% or more in the quantity of the contaminant to be released into the environment.

Operator Competency

- (A4) The holder of this environmental authority shall ensure that the operation and maintenance of all plant and equipment used in carrying out the environmentally relevant activities is carried out by or under the supervision of a person who is competent to operate and maintain such plant and equipment.

END OF CONDITIONS FOR SCHEDULE A

Schedule B - Air

The following conditions are prescribed:

- (B1) Wherever possible, metal surface coating must be carried out inside buildings or spray booths, so as to contain paint overspray, airborne wastes and other material.
- (B2) When the item being coated is too large to fit inside the available buildings, the holder of this environmental authority shall wherever practicable use screens, tarpaulins, impingement baffles, water sprays, scrubbers or other enclosing measures to contain any paint overspray, airborne wastes or other material.
- (B3) The licensee must ensure that all paints, thinners, solvents and other volatile substances are stored in sealed containers to prevent the discharge of volatile organic compounds to the atmosphere.

END OF CONDITIONS FOR SCHEDULE B

Schedule C - Water

The following conditions are prescribed:

Release of Contaminants to Waters

- (C1) The holder of this environmental authority must ensure that in carrying out the environmentally relevant activity, solvents and paint are not directly or indirectly released to any waters or the bed and banks of any waters.

END OF CONDITIONS FOR SCHEDULE C

Schedule D - Stormwater management

The following conditions are prescribed:

Bunding

- (D1) All chemical and petroleum product storage tanks must be banded so that the capacity of the band is sufficient to contain at least 100% of the largest storage tank plus 10% of the second largest tank within the band.
- (D2) All chemical and petroleum product drum storages must be banded so that the capacity of the band is sufficient to contain at least 25% of the maximum design storage volume within the band.
- (D3) Where it is impractical to completely roof a banded area the holder of the environmental authority must ensure that any stormwater captured within the band is free from contaminants or wastes prior to any release to the environment.
- (D4) All required pipework from any banded areas on the licensed place must be directed over the band wall and not through it.
- (D5) Any spillage of materials or wastes must be cleaned up immediately. Such spillages must not be cleaned up by hosing, sweeping or otherwise releasing such wastes, contaminants or material to any stormwater drainage system, roadside gutter or waters.

END OF CONDITIONS FOR SCHEDULE D

Schedule E - Land application

No conditions are prescribed under this schedule.

END OF CONDITIONS FOR SCHEDULE E

Schedule F - Noise

The following conditions are prescribed:

Emission of Noise

- (F1) In the event of a complaint about noise that the administering authority considers is reasonable, then the emission of noise from the activity must not result in levels greater than those specified in Table 1 of the Noise Schedule until the circumstances which gave rise to the complaint are resolved.

Schedule F - Table 1

Noise Level at a Noise Sensitive Place Measured as the Adjusted Maximum Sound Pressure Level L (Amax adj,T)	Period
Background noise level plus 5 dB(A)	7 am - 6 pm
Background noise level plus 5 dB(A)	6 pm - 10 pm
Background noise level plus 3 dB(A)	10 pm - 7 am
Noise Limits at a commercial place Measured as the Adjusted Maximum Sound Pressure Level L (Amax adj, T)	Period
Background noise level plus 10 dB(A)	7 am - 6 pm
Background noise level plus 10 dB(A)	6 pm - 10 pm
Background noise level plus 8 dB(A)	10 pm - 7 am

END OF CONDITIONS FOR SCHEDULE F

Schedule G - Waste management

The following conditions are prescribed:

General

- (G1) The holder of this environmental authority must cause the regulated wastes generated as a result of carrying out the environmentally relevant activities to be either:
- (a) disposed of at a premises licensed under the Environmental Protection Act 1994 to receive such wastes if load is under 250kg and transported by the licensee; or
 - (b) collected by a person licensed to transport regulated wastes under the Environmental Protection Act 1994.

END OF CONDITIONS FOR SCHEDULE G

Schedule H - Self monitoring and reporting

The following conditions are prescribed:

Mobile Activities Recording

- (H1) The holder of this environmental authority must keep a logbook of instances when the environmentally relevant activities are conducted. The logbook must specify:
- (a) name of client receiving services of the holder of this environmental authority;
 - (b) name of employee conducting the mobile operations;
 - (c) date and time the work was carried out;
 - (d) location where the mobile operations were occurring;
 - (e) summary of the work undertaken; and

- (f) any control measures which were used to prevent contamination (for example tarpaulins, screens etc).

Note: A quality control record system maintained by the holder of this environmental authority and containing the above information will be deemed to satisfy this condition.

Complaint Recording

- (H2) All complaints received by the holder of this environmental authority relating to the environmentally relevant activities must be recorded in a log book with the following details:
 - (a) time, date and nature of complaint;
 - (b) type of communication (telephone, letter, personal etc.);
 - (c) name, contact address and contact telephone number of complainant (Note: if the complainant does not wish to be identified then "Not identified" is to be recorded);
 - (d) response and investigation undertaken as a result of the complaint;
 - (e) name of person responsible for investigating complaint; and
 - (f) action taken as a result of the complaint investigation, and signature of responsible person.

Incident Recording

- (H3) A record must be maintained of at least the following events:
 - (a) the time, date and duration of equipment malfunctions where the failure of the equipment resulted in the release of contaminants reasonably likely to cause environmental harm;
 - (b) any uncontrolled release of contaminants reasonably likely to cause environmental harm; and
 - (c) any emergency involving the release of contaminants reasonably likely to cause material or serious environmental harm requiring the use of fire fighting equipment.

Notification of Emergencies and Incidents

- (H4) Where the holder of this environmental authority has not given notification to the administering authority under section 320 of the Environmental Protection Act, as soon as practicable after becoming aware of any emergency or incident which results in the release of contaminants not in accordance, or reasonably expected to be not in accordance with the conditions of this environmental authority, the holder of this environmental authority must notify the administering authority of the release by telephone or facsimile.
- (H5) Where the holder of this environmental authority has not given notification to the administering authority under section 320 of the Environmental Protection Act, the notification of emergencies or incidents as required by condition number (H4) must include but not be limited to the following:
 - (a) the holder of this environmental authority;
 - (b) the location of the emergency or incident;
 - (c) the number of the environmental authority;
 - (d) the name and telephone number of the designated contact person;
 - (e) the time of the release;
 - (f) the time the holder of this environmental authority became aware of the release;
 - (g) the suspected cause of the release;
 - (h) the environmental harm and or environmental nuisance caused, threatened, or to be caused by the release; and
 - (i) actions taken to prevent further any release and mitigate any environmental harm and or environmental nuisance caused by the release.

- (H6) Where the holder of this environmental authority has not given notification to the administering authority under section 320 of the Environmental Protection Act, not more than fourteen (14) days following the initial notification of an emergency or incident, the holder of this environmental authority must provide written advice of the information supplied in accordance with condition number (H5) in addition to:
- (a) proposed actions to prevent a recurrence of the emergency or incident; and
 - (b) outcomes of actions taken at the time to prevent or minimise environmental harm and or environmental nuisance.

END OF CONDITIONS FOR SCHEDULE H

Schedule I - Definitions

Words and phrases used throughout this licence.

Some of the words and phrases used throughout this licence are defined below:

- (I1) "Act" means the Environmental Protection Act 1994.
- (I2) "administering authority" means the Environmental Protection Agency or its successor.
- (I3) "background noise level" means $L_{A90,T}$ being the A-weighted sound pressure level exceeded for 90 percent of the time period of not less than fifteen (15) minutes, using Fast response.
- (I4) "commercial place" means a place used as an office or for business or commercial purposes.
- (I5) "land" means land excluding waters and the atmosphere.
- (I6) " $L_{Amax,adj,T}$ " means the average maximum A-weighted sound pressure level, adjusted for noise character and measured over a time period of not less than fifteen (15) minutes, using Fast response.
- (I7) "metal surface coating" means coating of surfaces for decoration and/or protection of articles.
- (I8) "noise sensitive place" means:
 - (a) a dwelling, mobile home or caravan park, residential marina or other residential premises; or
 - (b) a motel, hotel or hostel; or
 - (c) a kindergarten, school, university or other educational institution; or
 - (d) a medical centre or hospital; or
 - (e) a protected area; or
 - (f) a park or gardens.
- (I9) "overspray" means paint, powder and solvent that miss the item being painted.
- (I10) "regulated waste" means non-domestic waste included in Schedule 7 of the Environmental Protection Regulations 1998 (whether or not it has been treated or immobilised), and includes:
 - (a) for an element - any chemical compound containing the element;
 - (b) anything that has contained a regulated waste.
- (I11) "vehicle" means a hovercraft or a vehicle, that is propelled by a motor that forms part of the vehicle and moves on wheels, other than a train or tram.
- (I12) "the holder of this environmental authority" means Luxury Yacht Refinishers Pty Ltd.
