

Registration certificate

Environmental Protection Act 1994

Certificate of Registration

No: ENRE00845408

This registration certificate is issued by the administering authority and takes effect from: 10-FEB-2011.

The anniversary day for the purposes of the Annual Return remains: 22 January.

This registration certificate is a requirement of section 73F of the *Environmental Protection Act 1994* and authorises the registered operator to undertake the activity listed below at the following place; subject to the conditions set out in a development approval attached to the premises, or the relevant code of environmental compliance.

Registered Operator:-

Gallia Worldwide Pty Ltd
King Reef Resort Hotel
Jacobs Road
KURRIMINE BEACH QLD 4871

Development Approval Number: FN0583

Place:-

Lot 439 Plan NR4558

Located at:-

Jacobs Road, KURRIMINE BEACH QLD 4871

Registered Activity: -

ERA 63 Sewage treatment Threshold 2(a) - operating sewage treatment works, other than no-release works, with a total daily peak design capacity of 21 to 100EP (i) if treated effluent is discharged to an infiltration trench or through an irrigation scheme

Cathy Birt
Delegate
Administering authority
Environmental Protection Act 1994

10-FEB-2011

Licence No. FN0583 **(without development approval)** **Section 93 Environmental Protection Act 1994**

This licence to carry out an environmental relevant activity is issued in accordance with section 93 of the Environmental Protection Act 1994.

**Under the provisions of the
 Environmental Protection Act 1994 this licence is issued to:**

Gallia Worldwide Pty Ltd
 TA King Reef Resort Hotel
 Jacobs Road
 KURRIMINE BEACH QLD 4871

in respect of carrying out the environmental relevant activity:

15(a) Sewage treatment - Operating a standard sewage treatment works having a peak design capacity to treat sewage of 21 or more equivalent persons but less than 100 equivalent persons

at the following place(s):

King Reef Resort Hotel
 Lot 439, NR4558
 Parish of Hull, County of Nares.

located at:

Jacobs Road
 KURRIMINE BEACH QLD 4871.

This licence is subject to the conditions set out in the attached schedules.

The anniversary date of this licence is **22 February**

This licence takes effect from **12 February 2003**.

.....
 Signed

12 February 2003

 Date

Rob Lawrence
District Manager
Cairns District, Northern Region
 Delegate of Administering Authority
Environmental Protection Act 1994

Note: This licence document is not proof of the current status of the licence. The current status of the licence may be ascertained by contacting the Environmental Protection Agency.

Schedule of conditions

The aforementioned description of the ERA for which this authority is issued is simply a restatement of the activity as prescribed in the legislation at the time of issuing this authority. Where there is any conflict between the above description of the ERA for which this authority is issued and the conditions as specified in this authority as to the scale, intensity or manner of carrying out of the ERA, then such conditions prevail to the extent of the inconsistency.

This authority incorporates the following schedules of conditions relevant to various issues:

- Schedule A - Activity
- Schedule B - Air
- Schedule C - Water
- Schedule D - Noise and vibration
- Schedule E - Waste
- Schedule F - Land
- Schedule G - Community
- Schedule H - Definitions
- Schedule I - Maps / Plans

Schedule A - Activity

Prevent and /or minimise likelihood of environmental harm

- (A1-1) In carrying out the environmentally relevant activities, you must take all reasonable and practicable measures to prevent and / or to minimise the likelihood of environmental harm being caused. Any environmentally relevant activity, that, if carried out incompetently, or negligently, may cause environmental harm, in a manner that could have been prevented, shall be carried out in a proper manner in accordance with the conditions of this authority.

NOTE: This authority authorises the environmentally relevant activity. It does not authorise environmental harm unless a condition contained within this authority explicitly authorises that harm. Where there is no condition or the authority is silent on a matter, the lack of a condition or silence shall not be construed as authorising harm.

Monitoring and Measurements

- (A1-2) Septic tanks and absorption trench areas must be inspected as often as is necessary to prevent:
- (a) any overloading of the septic tanks; and
 - (b) any carryover of solid materials to absorption trenches; and
 - (c) any surface pooling of effluent.
- (A1-3) Records shall be made of the results of the inspection program referred to in condition number (A1-2) and of any remedial works undertaken.

Monitoring of Groundwater Quality

- (A1-4) The holder of this environmental authority must install and maintain a monitoring bore for the purpose of sampling groundwater from any aquifer likely to be affected by the licensed activity.
- (A1-5) The monitoring bore must be installed hydraulically down-gradient of the sewage treatment plant and absorption trenches on the licensed place.

- (A1-6) The holder of this environmental authority is responsible for ensuring groundwater monitoring is performed in accordance with the following requirements:
- (a) standing water levels in metres must be measured and recorded on each occasion that samples are obtained. Such measurement must be undertaken prior to any disturbance by sampling.
 - (b) a sample of groundwater must be taken from the bore on at least one occasion in each of the months of February, August and December of each year; and
 - (c) the sample obtained in accordance with condition number (A1-6)(b) must be analysed for faecal coliforms and total nitrogen (TN).
- (A1-7) All determinations of the quality of contaminants released to the environment and all measurement and reporting of noise levels that are required by this environmental authority must be undertaken by a person or body possessing appropriate experience and qualifications to perform the required determinations and the required measurements.
- (A1-8) All instruments and devices used for the measurement or monitoring of any parameter under any condition of this environmental authority must be calibrated, and appropriately operated and maintained.

Report Submission

- (A1-9) The holder of this environmental authority must ensure that the results of all monitoring performed in accordance with this environmental authority for the period covered by the return are submitted with the annual return.
- (A1-10) All environmental monitoring determinations must be made in accordance with methods prescribed in the Environmental Protection Agency's Water Quality Sampling Manual, 3rd Edition, December 1999, or more recent editions or supplements to that document as such become available.

END OF CONDITIONS FOR SCHEDULE A

Schedule B - Air

- (B1-1) In the event of a complaint being made to the holder of the environmental authority or the administering authority about odour generated on the licensed place that constitutes unreasonable interference and which is considered to be neither frivolous or vexatious, the holder of this environmental authority must take steps to mitigate the odour source to ensure that no noxious or offensive odour is released beyond the boundaries of the licensed place.

END OF CONDITIONS FOR SCHEDULE B

Schedule C - Water

Stormwater management

- (C5-1) There must be no release of stormwater runoff that has been in contact with any contaminants at the site to any waters, roadside gutter or stormwater drain.
- (C5-2) Any spillage during pumping out of sewage sludge or grease trap wastes must be cleaned up as quickly as practicable. Spillages must be cleaned up by dry methods wherever possible or by other appropriate methods to prevent such spills entering the stormwater system and discharging from the site.

END OF CONDITIONS FOR SCHEDULE C

Schedule D - Noise and vibration

Noise nuisance

- (D1-1) Noise from activities must not cause an environmental nuisance at any noise affected premises.

END OF CONDITIONS FOR SCHEDULE D

Schedule E - Waste

General

- (E1-1) Grease traps must be inspected and emptied as often as is necessary to ensure effective operation of the traps, and to avoid overflows.
- (E1-2) The removal of sludges from the sewage treatment plant and grease traps must be carried out in a manner that minimises the risk of spillage of sludge or any other release of contaminants to the environment.

Regulated waste storage conditions

- (E1-3) The lids of all grease trap waste storage tanks must be kept closed except when necessary for maintenance or for the monitoring of tank capacity.

Septic Tanks and Absorption Trenches

- (E1-4) Septic tanks must be deslugged as often as is necessary to prevent:
- (a) any overloading of the septic tanks; and
 - (b) any carryover of solid materials to absorption trenches likely to cause surface pooling.

Sewage Sludge Handling and Disposal

- (E1-5) Where sludges from the sewage treatment plant (septic tank) or other regulated wastes are removed from the licensed place, the holder of this environmental authority must ensure that:
- (a) the removal and transport of such regulated waste, where it constitutes an environmentally relevant activity under the *Environmental Protection Regulation 1998*, is carried out by a person licensed for carrying out this activity under the *Environmental Protection Act 1994*; and
 - (b) records are kept of the following:
 - (c) the date, quantity and type of waste removed; and
 - (d) name of the waste transporter and/or disposal operator that removed the waste; and
 - (e) the intended treatment/disposal destination of the waste.

Note: Records of documents maintained in compliance with a waste tracking system established under the *Environmental Protection Act 1994* or any other law for regulated waste will be deemed to satisfy this condition of the Environmental Authority.

Notification of Improper Disposal of Regulated Waste

- (E1-6) If the holder of this environmental authority becomes aware that a person has removed waste from the licensed place and disposed of that waste in a manner which is not authorised by this environmental authority, or improper or unlawful, then the holder of this environmental authority must, as soon as practicable, notify the administering authority of all relevant facts, matters and circumstances known concerning the disposal.

END OF CONDITIONS FOR SCHEDULE E

Schedule F - Land

- (F1-1) This environmental authority does not permit any release to land of sewage or sullage generated at the licensed place other than through the absorption trenches area marked in condition number (J1).

END OF CONDITIONS FOR SCHEDULE F

Schedule G - Community

Complaint response

- (G1-1) All complaints received must be recorded including investigations undertaken, conclusions formed and action taken. This information must be made available to the administering authority on request.

END OF CONDITIONS FOR SCHEDULE G

Schedule H - Definitions

- (H1-1) "administering authority" means the Environmental Protection Agency or its successor.
- (H1-2) "the holder of this environmental authority" means Gallia Worldwide Pty Ltd
- (H1-3) "licensed place" means : King Reef Resort Hotel, Lot 439, NR4558, Parish of Hull, County of Nares, located at Jacobs Road, Kurrimine Beach Qld 4871.
