Notice

Environmental Protection Act 1994

Amendment of an environmental authority by the administering authority

This notice is issued by the administering authority[1], pursuant to section 211 of the Environmental Protection Act 1994 *to advise that an environmental authority is being amended.*

To: Department of Agriculture and Fisheries
PO Box 46
BRISBANE QLD 4001

Email: albert.kello@daf.qld.gov.au

Amendment of an environmental authority to correct a clerical error

1. Environmental authority details

Environmental authority number EPPR00596913 dated 04/08/2016.

Land description: Numerous FPQ Forest Management Areas Lot 1229 Plan AP19345, Lot 185 Plan AP19368, Lot SF461 Plan FTY1600, Lot 700 Plan FTY1877, Lot 589 Plan FTY1876, Lot 611 Plan NPW725, Lot 69 Plan NPW841, Lot 1294 Plan FTY1888, Lot 69 Plan NPW841, Lot SF1004 Plan FTY1659 Lot SF695 Plan FTY1570, Lot SF257 Plan FTY1509, Lot 379 Plan FTY1896, Lot 204 Plan NPW816, Lot SF289 Plan FTY1859, Lot SF618 Plan FTY1626, Lot 283 Plan FTY1651, Lot 435 Plan FTY1895 Lot 202 Plan NPW719, Lot SF298 Plan FTY1230, Lot 135 Plan FTY1911, Lot 135 Plan NPW746, Lot 673 Plan FTY19311, Lot 1 Plan AP19296, Lot 207 Plan FTY1885, Lot 207 NPW746 .

2. Amendment

The administering authority has become aware that there is a clerical error on the environmental authority that requires correction. This correction is minor in nature and will not adversely impact your interests or anyone else. As a result, the anniversary date has been amended to the 17 June. The amended environmental authority is enclosed with this notice.

[1] The Department of Environment and Heritage Protection is the administering authority under the *Environmental Protection Act 1994*.

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority is issued is a restatement of the ERA as defined by legislation at the time the approval is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an environmental authority as to the scale, intensity or manner of carrying out an ERA, then the conditions prevail to the extent of the inconsistency.

An environmental authority authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the authority specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

Contaminated land

It is a requirement of the EP Act that if an owner or occupier of land becomes aware of the following:

- a notifiable activity (as defined in Schedule 3) that is being, or has been, carried out on the land, (notice must be given within 20 business days)
- an event involving a hazardous contaminant on the land, or a change in the condition of the contaminated land, that is causing, or is reasonably likely to cause, serious or material environmental harm (notice must be given within 24 hours). For further information, including the form for giving written notice, refer to the Queensland Government website http://ww.qld.gov.au/ (using the search term 'managing contaminated land'

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

Conditions of environmental authority

The environmentally relevant activity(ies) conducted at the location as described above must be conducted in accordance with the following site specific conditions of approval.

Agency interest: General	
Condition number	**Condition**
G1	In carrying out the environmentally relevant activity, the holder of this environmental authority must take all reasonable and practical measures to minimise releases and the likelihood of releases of contaminants to the environment, except as otherwise provided by the conditions of this environmental authority.
G2	Each pit site is to be selected according to the criteria detailed in the Application.
G3	The licensee must make a record of the location of each pit in sufficient detail to permit its site to be found at any future time. These records must be kept so that they can be produced at any future time
G4	Each pit in operation must be kept surrounded by a fence appropriate to deter entry by livestock.
G5	A sign carrying words designed to discourage entry by the public must be at or near the entry to the site of each pit in operation.
Agency interest: Waste	
Condition number	**Condition**
W1	The licensee must take reasonable and practical measures to minimise the quantities of herbicide residue to be disposed of.
W2	Empty herbicide containers must be washed with water before disposal. The washings from the containers must be put to use and must not be discharged to any watercourse.
W3	Empty herbicide containers to be buried in a pit must be stored in a building or under cover until they are taken to the pit.

W4	Whenever herbicide containers and herbicide residues are taken to a pit, they must be deposited in the pit and covered completely with soil on the day they are taken there.
