Department of
**Environment and
Heritage Protection**

Our reference: 223764

Application details

I refer to the application that was received by the administering authority on 12-SEP-2014.

Land description: 226 Gladys Road, Inkerman Lot 1 Plan AP2107.

Decision

Your application has been approved and your environmental authority (reference EPPR02510714) is attached.

Additional comments or advice

You are advised that if you are not the owner of the land to which the environmental authority relates, you have 10 business days from receipt of this environmental authority to give each owner of the land, written notice that you have been issued this environmental authority.

Should you have any further enquiries, please contact Shari Sievers on 1300 130 372, option 4.

Yours sincerely

Humphries Pty Ltd	C/- WSG Whitsunday Surveys PO Box 177 PROSERPINE QLD 4800

Environmentally relevant activity and location details

Environmentally relevant activity(ies)	Location(s)
16-(2a) Extractive >5000t but <100000t yr 16-(3a) Screening >5000t but <100000t yr	226 Gladys Road and Inkerman - Lot 1 Plan AP2107

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority is issued is a restatement of the ERA as defined by legislation at the time the approval is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an environmental authority as to the scale, intensity or manner of carrying out an ERA, then the conditions prevail to the extent of the inconsistency.

An environmental authority authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the authority specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

¹ Permit includes licences, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation

Contaminated land

It is a requirement of the EP Act that if an owner or occupier of land becomes aware a notifiable activity (as defined in Schedule 3 and Schedule 4) is being carried out on the land, or that the land has been, or is being, contaminated by a hazardous contaminant, the owner or occupier must, within 22 business days after becoming so aware, give written notice to the chief executive.

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

Conditions of environmental authority

The conditions of approval for this environmental authority are contained within the attached document entitled:

- Conditions.

Location:

226 Gladys Road and Inkerman - Lot 1 Plan AP2107

Relevant activity/ies:

16-(2a) Extractive >5000t but <100000t yr

16-(3a) Screening >5000t but <100000t yr

The environmentally relevant activities conducted at the location as described above must be conducted in accordance with the following site specific conditions of approval.

CONDITIONS

General	
G1.	Activities conducted under this environmental authority must be conducted in accordance with the following: a) The maximum rate of extraction is to be no greater than 25,000tonnes of material per year; b) the minimum depth of the extraction activity is to be no lower than 2.2metres Australian Height Datum; c) the activity must occur in general accordance with the plans included in Schedule 1: Approved Plans.
G2.	All reasonable and practicable measures must be taken to minimise the likelihood of environmental harm being caused.
G3.	Any breach of a condition of this environmental authority must be reported to the administering authority within 24 hours of becoming aware of the breach and record full details of the breach and any subsequent actions.
G4.	All information and records that are required by the conditions of this environmental authority must be kept for a period of at least 5 years.
G5.	If you become aware of any adverse impact on an environmental value you must notify the administering authority in writing of the full details of the adverse impact within 24 hours of becoming aware of the impact.
G6.	The activity must not be carried out until you have given financial assurance to the administering authority as security for compliance with this authority and any costs or expenses, or likely costs or expenses, mentioned in section 298 of the Environmental Protection Act.
G7.	If the administering authority increases the amount of financial assurance you must give the additional financial assurance to the administering authority within 28 days of receiving written notice.
Air	
A1.	Odours or airborne contaminants which are noxious or offensive or otherwise unreasonably disruptive to public amenity or safety must not be released to any nuisance sensitive place or commercial place .

Noise

- N1. Noise from the **activity** must not occur from blasting or include **substantial low frequency noise** components and must not exceed the levels identified in Table 1 – Noise limits and the associated requirements at any nuisance **sensitive place** or **commercial place**.

Table 1 – Noise limits

Noise level measured in dB(A)	Monday to Saturday			Sunday and Public Holidays		
	7am-6pm	6pm-10pm	10pm-7am	9am-6pm	6pm-10pm	10pm-9am
	Noise measured at a nuisance sensitive place					
L_{Aeq adj,T}	Background +5	Background +3	Background +0	Background +5	Background + 3	Background + 0
MaxL_{pA,T}	Background +10	Background +8	Background +5	Background +10	Background +8	Background +5
	Noise measured at a commercial place					
	Background +10	Background +8	Background +5	Background +10	Background +8	Background +5
	Background +15	Background +13	Background +10	Background +15	Background +13	Background +10

Water

- WT1. Other than as permitted within this authority, contaminants must not be released from the site to any waters or the bed and banks of any waters.
- WT2. Contaminants must not be released to groundwater.
- WT3. Contaminants must not be released to surface waters.

Waste

- WS1. Waste must only be removed from the site by a transporter lawfully able to transport it and taken to a place lawfully able to receive it.
- WS2. Waste must not be burnt.

Land

- L1. Contaminants must not be released to land.
- L2. Treatment and management of acid sulfate soils must comply with the latest edition of the **administering authority's** manual *Instructions for the Treatment and management of acid sulfate soils, 2001*.
- L3. Upon completion of the operational work within each staged area shown in the plan Sequence of clearing and extraction operations, Earth Environmental, September 2012, the staged area must be rehabilitated to achieve a safe, stable, non-polluting landform.

- | | |
|-----|---|
| L4. | Rehabilitation required under condition L3 must be started for each staged area prior to undertaking any disturbance within the next staged area. |
