Permit

Environmental Protection Act 1994

Environmental authority EPPR04463416

This environmental authority is issued by the administering authority under Chapter 5 of the Environmental Protection Act 1994.

Environmental authority number: EPPR04463416

Environmental authority takes effect on 07-APR-2017.

The anniversary date of this environmental authority is the same day each year as the effective date. An annual return and the payment of the annual fee will be due each year on this day.

Environmental authority holder

Name	Registered address
AA Stevedoring Pty Ltd	1445 Mt Cotton Road BURBANK QLD 4156

Environmentally relevant activity and location details

Environmentally relevant activities	Locations
57(2b) – transporting regulated waste, other than tyres, in 6 to 35 vehicles.	Mobile and temporary – various locations around Queensland.
50(1a) – loading or unloading 100t or more of minerals in a day or stockpiling 50,000t or more of minerals within 5km of the highest astronomical tide or 1km of a watercourse.	73E Tingira Street PINKEBA - Lot 1174 Plan SP172732, 152A Colmslie Road MURARRIE - Lot 861 Plan SL11287, 221B MacArthur Avenue HAMILTON - Lot 2 Plan SP224040, 77A Pamela Street PINKEBA - Lot 1225 Plan SP110604, 250A Peringa Road MURRARIE - Lot 481 Plan SL5761, 47A Pamela Street PINKEBA - Lot 1220 Plan CP903460.
50(2) – loading or unloading 100t or more of bulk materials in a day or stockpiling bulk materials.	

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority (EA) is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out an ERA, the conditions prevail to the extent of the inconsistency.

ABN 46 640 294 485

An EA authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or
- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days).

that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website www.qld.gov.au, using the search term 'duty to notify'.

If you have incorrectly claimed that an additional authorisation is not required, carrying out the ERA without the additional authorisation is not legal and could result in your prosecution for providing false or misleading information or operating without a valid environmental authority.

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

Other permits required

This permit only provides an approval under the *Environmental Protection Act 1994*. In order to lawfully operate you may also require permits / approvals from your local government authority, other business units within the department and other State Government agencies prior to commencing any activity at the site. For example, this may include permits / approvals with your local Council (for planning approval), the Department of Transport and Main Roads (to access state controlled roads), the Department of Natural Resources and Mines (to clear vegetation), and the Department of Agriculture and Fisheries (to clear marine plants or to obtain a quarry material allocation).

Conditions of environmental authority

Part 1 - Conditions relating to ERA 57 – transporting regulated waste, other than tyres, in 6 to 35 vehicles.

Environmentally relevant activities	Locations
57(2b) – transporting regulated waste, other than tyres, in 6 to 35 vehicles.	Mobile and temporary – various locations around Queensland.

The conditions of approval for ERA 57(2b) for regulated waste transport within this environmental authority include standard environmental conditions contained within the attached document entitled *Code of environmental compliance for certain aspects* of regulated waste transport* (ERA 57) (version 4).

Part 2 - Conditions relating to ERA 50(1a) and 50(2).

Environmentally relevant activities	Locations
50(1a) – loading or unloading 100t or more of minerals in a day or stockpiling 50,000t or more of minerals within 5km of the highest astronomical tide or 1km of a watercourse.	73E Tingira Street PINKEBA - Lot 1174 Plan SP172732, 152A Colmslie Road MURARRIE - Lot 861 Plan SL11287, 221B MacArthur Avenue HAMILTON - Lot 2 Plan SP224040, 77A Pamela Street PINKEBA - Lot 1225 Plan SP110604, 250A Peringa Road MURRARIE - Lot 481 Plan SL5761, 47A Pamela Street PINKEBA - Lot 1220 Plan CP903460.
50(2) – loading or unloading 100t or more of bulk materials in a day or stockpiling bulk materials.	

Agency Interest: General	
Condition Number	**Condition**
G1	The only materials and minerals permitted to be handled under this permit are clinker, urea, coke, sand, woodchip, slag, gypsum, soda ash, salt, fertiliser, pot ash, grains, sugar and sodium sulfate.
G2	Any breach of a condition of this environmental authority must be reported to the administering authority as soon as practicable within 24 hours of becoming aware of the breach. Records must be kept including full details of the breach and any subsequent actions taken.
G3	All reasonable and practicable measures must be taken to prevent or minimise environmental harm caused by the activities.
G4	The activity must be undertaken in accordance with written procedures that: a) identify potential risks to the environment from the activity during routine operations and emergencies; b) establish and maintain control measures that minimise the potential for environmental harm; c) ensure plant, equipment and measures are maintained in a proper and effective condition; d) ensure plant, equipment and measures are operated in a proper and effective manner; e) ensure that staff are trained and aware of their obligations under the *Environmental Protection Act 1994*; and f) ensure that reviews of environmental performance are undertaken at least annually.
G5	All records must be kept for a period of at least five years and provided to the administering authority upon request.
G6	Chemicals and fuels in containers of greater than 15 litres must be stored within a secondary containment system.

G7	When required by the administering authority, monitoring must be undertaken in the manner prescribed by the administering authority to investigate a complaint of environmental nuisance arising from the activity. The monitoring results must be provided within 10 business days to the administering authority upon its request.

Agency Interest: Air	
Condition Number	**Condition**
A1	Odours or airborne contaminants must not cause environmental nuisance to any sensitive place or commercial place.
A2	Dust and particulate matter emissions must not exceed the following concentrations at any sensitive place or commercial place: a) dust deposition of 120 milligrams per square metre per day, when monitored in accordance with Australian Standard AS 3580.10.1 (or more recent editions); and b) a concentration of particulate matter with an aerodynamic diameter of less than 10 micrometre (µm) (PM10) suspended in the atmosphere of 50 micrograms per cubic metre over a 24 hour averaging time, when monitored in accordance with Australian Standard AS 3580.9.6 (or more recent editions) or any other method approved by the administering authority.

Agency Interest: Noise	
Condition Number	**Condition**
N1	Noise generated by the activity must not cause environmental nuisance to any sensitive place or commercial place.

Agency Interest: Water	
Condition Number	**Condition**
WT1	Contaminants must not be released to any waters.
WT2	Stormwater contaminated by the activity must be managed to minimise or prevent any adverse impacts on the values of the receiving environment.

Angency Interest: Land	
Condition Number	**Condition**
L1	Contaminants must not be released to land.

Agency Interest: Waste	
Condition Number	**Condition**
W1	All waste generated in carrying out the activity must be lawfully reused, recycled or removed to a facility that can lawfully accept the waste.

Definitions

Key terms and/or phrases used in this document are defined in this section. Where a term is not defined, the definition in the *Environmental Protection Act 1994*, its regulations or environmental protection policies must be used. If a word remains undefined it has its ordinary meaning.

Activity means the environmentally relevant activities, whether resource activities or prescribed activities, to which the environmental authority relates.

Administering authority means the Department of Environment and Heritage Protection or its successors or predecessors.

Commercial place means a place used as a workplace, an office or for business or commercial purposes and includes a place within the curtilage of such a place reasonably used by persons at that place.

Environmental nuisance as defined in Chapter 1 of the *Environmental Protection Act 1994*.

Land does not include waters.

Measures have the broadest interpretation and includes plant, equipment, physical objects, monitoring, procedures, actions, directions and competency.

Records include breach notifications, written procedures, analysis results, monitoring reports and monitoring programs required under a condition of this authority.

Secondary containment system means a system designed, installed and operated to prevent any release of contaminants from the system, or containers within the system, to land, groundwater, or surface waters.

Sensitive place includes the following and includes a place within the curtilage of such a place reasonably used by persons at that place:

1. a dwelling, residential allotment, mobile home or caravan park, residential marina or other residential premises; or
2. a motel, hotel or hostel; or
3. a kindergarten, school, university or other educational institution; or
4. a medical centre or hospital; or
5. a protected area under the *Nature Conservation Act 1992*, the *Marine Parks Act 2004* or a World Heritage Area; or
6. a public park or garden; or
7. for noise, a place defined as a sensitive receptor for the purposes of the Environmental Protection (Noise) Policy 2008.

Waters includes river, stream, lake, lagoon, pond, swamp, wetland, unconfined surface water, unconfined water, natural or artificial watercourse, bed and bank of any waters, dams, non-tidal or tidal waters (including the sea), stormwater channel, stormwater drain, roadside gutter, stormwater run-off, and groundwater and any part thereof.
