

# Permit

Environmental Protection Act 1994

Environmental authority EPSL00052413

This environmental authority is issued by the administering authority under Chapter 5 of the Environmental Protection Act 1994.

**Environmental authority number: EPSL00052413**

**Environmental authority takes effect on 06 March 2018**

**Environmental authority holder(s)**

| Name(s)             | Registered address                                                    |
|---------------------|-----------------------------------------------------------------------|
| Rosemary Burtenshaw | Coolgarra Station Lot 5 Plan SP206171 MOUNT GARNET QLD 4872 Australia |
| Garry Burtenshaw    | Coolgarra Station Lot 5 Plan SP206171 MOUNT GARNET QLD 4872 Australia |

**Environmentally relevant activity and location details**

| Environmentally relevant activity/activities                         | Location(s) |
|----------------------------------------------------------------------|-------------|
| Resource Activity, Non-Scheduled, Mining Activity, Mining Lease - ML | ML4342      |

**Additional information for applicants**

#### Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority (EA) is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out an ERA, the conditions prevail to the extent of the inconsistency.

An EA authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the Environmental Protection Act 1994 (EP Act).

#### Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or
- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days);

that is causing, or is reasonably likely to cause, serious or material environmental harm.

## Environmental authority

---

For further information, including the form for giving written notice, refer to the Queensland Government website [www.qld.gov.au](http://www.qld.gov.au), using the search term 'duty to notify'.

### Take effect

Please note that, in accordance with section 200 of the EP Act, an EA has effect:

- a) if the authority is for a prescribed ERA and it states that it takes effect on the day nominated by the holder of the authority in a written notice given to the administering authority-on the nominated day; or
- b) if the authority states a day or an event for it to take effect-on the stated day or when the stated event happens; or
- c) otherwise-on the day the authority is issued.

However, if the EA is authorising an activity that requires an additional authorisation (a relevant tenure for a resource activity, a development permit under the Sustainable Planning Act 2009 or an SDA Approval under the State Development and Public Works Organisation Act 1971), this EA will not take effect until the additional authorisation has taken effect.

If this EA takes effect when the additional authorisation takes effect, you must provide the administering authority written notice within 5 business days of receiving notification of the related additional authorisation taking effect.

If you have incorrectly claimed that an additional authorisation is not required, carrying out the ERA without the additional authorisation is not legal and could result in your prosecution for providing false or misleading information or operating without a valid environmental authority.

## Legislative Requirements and Conditions of Environmental Authority

- G1 The conditions of this environmental authority are in force until a surrender of the authority is accepted pursuant to the Environmental Protection Act 1994. The conditions apply unless an amendment is approved pursuant to the Environmental Protection Act 1994.
- G2 The environmental authority holder is to give the administering authority a financial assurance in the amount and form and at a time required by the administering authority.
- G3 The environmental authority holder must comply with each of the Standard Environmental Conditions contained in the Code of Environmental Compliance for Mining Lease Projects (January 2001).
- G4 If a 'valid from' date is not stated on this document, the environmental authority transfer takes effect when each of the environmental authority holders has become a holder of a relevant mining tenement.
