Dear Sir/Madam

Re: Decision made in relation to your application under legislation administered by the Environmental Protection Agency (EPA).

The EPA has assessed your application received on 19-JUL-2007 and wishes to advise you of the following decision:

Permit Applied For	Permit Number	Decision
Environmental Authority (Mining Lease) Code Compliant Level 2 Mining Project under Environmental Protection Act 1994	MIC200623907	Granted

Where the application has been granted, this Notice of Decision and the Code of Environmental Compliance for Mining Leases Projects constitute the new permit documentation. Please retain this approval documentation for your records.

Please note this amendment may require the submission of a new **Plan of Operations (PoO)** where the amended EA results in inconsistencies with your current PoO. In this instance, an amended PoO is required within **28 days** of becoming aware of the inconsistency.

¹ Permit includes licences, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation administered by the Environmental Protection Agency and the Queensland Parks and Wildlife Service

If you require more information, please contact Glen Wright, the Project Manager, on the telephone number listed below.

Yours sincerely

Michael Rodgerson

Agency interest: General

- G1 The conditions of this environmental authority are in force until a surrender of the authority is accepted pursuant to the Environmental Protection Act 1994. The conditions apply unless an amendment is approved pursuant to the Environmental Protection Act 1994.
- G2 The environmental authority holder is to give the administering authority a financial assurance in the amount and form and at a time required by the administering authority.
- G3 The environmental authority holder must comply with each of the Standard Environmental Conditions contained in the Code of Environmental Compliance for Mining Lease Projects dated January 2001.

Agency interest: Land

- L1 Condition L1 to L5 are additional conditions under section 209 of the Environmental Protection Act 1994. If there is any inconsistency between a Standard Environmental Condition referred to in Condition G3 and an additional condition, then the additional condition prevails to the extent of any inconsistency.
- L2 The environmental authority holder must not undertake any new mining activities on the mining leases applicable to this environmental authority.
- L3 The holder of this environmental authority must develop and implement an appropriate Rehabilitation Plan. The Plan must be acceptable to the administering authority and be detailed in each new Plan of Operations. The Plan must comply with the following outcomes:
 - (a) self sustaining native ecosystem with species composition and distribution of similar representative sites; and
 - (b) all areas disturbed by mining activities must be rehabilitated to a stable landform design with erosion rates comparable to undisturbed representative sites; and
- L4 The environmental authority holder must complete the 'immediate rehabilitation actions' on areas disturbed by mining activities as detailed in the 'Sedimentary Holdings Ltd Site Inspection Report' dated 28 May 2002, as soon as practical and within 6 months of the commencement of this environmental authority.
- L5 The holder of this environmental authority must reduce the total area of disturbance attributed to past mining activities to 10 hectares or less of significant disturbance within twelve (12) months from the
