

Permit

Environmental Protection Act 1994

Environmental authority EPSL00474513

This environmental authority is issued by the administering authority under Chapter 5 of the Environmental Protection Act 1994.

Permit number: EPSL00474513

Environmental authority takes effect on 11 April 2022.

Environmental authority holder(s)

Name(s)	Registered address
DENJIM PTY LTD	179 Martyn Street CAIRNS QLD 4870

Environmentally relevant activity and location details

Environmentally relevant activity/activities	Location(s)
Non-Scheduled Mining Activity Exploration Permit Mineral - EPM	EPM18414
Non-Scheduled Mining Activity Exploration Permit Mineral - EPM	EPM25663
Non-Scheduled Mining Activity Mining Lease – ML Non-Scheduled Mining Activity Exploration Permit Mineral - EPM	ML10344

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority (EA) is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out an ERA, the conditions prevail to the extent of the inconsistency.

An environmental authority authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or
- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days)

that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website www.qld.gov.au, using the search term 'duty to notify'.

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 44)

Conditions of environmental authority

With the exception of any varied conditions listed below, the conditions of approval for this environmental authority are the standard conditions contained within the attached document(s):

- Code of environmental compliance for Mining Lease Projects Version 1.1 (EM588)
- Code of environmental compliance for exploration and mineral development projects Version 1.1 (EM586)

All reasonable steps must be taken to ensure the activity complies with the eligibility criteria and standard conditions.

Schedule L – Land

- L1 Notwithstanding standard condition 14 of the *Code of Environmental Compliance for Mining Lease Projects (EM588)*, Version 1.1 and condition 13 of the *Code of environmental compliance for exploration and mineral development projects (EM586)*, Version 1.1, the environmental authority holder is authorised to carry out eligible exploration activities involving machinery on ML10344, but not in, or within 200m of the category B environmentally sensitive area.

Schedule V – Variations

- V1 Significant residual impacts to prescribed environmental matters are not authorised under this environmental authority or the *Environmental Offsets Act 2014*.
- V2 Records demonstrating that each impact to a prescribed environmental matter did not, or is not likely to, result in a significant residual impact to that matter must be:
- a) completed by an appropriately qualified person; and
 - b) kept for the life of the environmental authority

Definitions

Key terms and/or phrases used in this document are defined in this section. Where a term is not defined, the definition in the *Environmental Protection Act 1994*, its regulations or environmental protection policies must be used. If a word remains undefined it has its ordinary meaning.

‘**significant residual impact**’ is defined under section 8 of the *Environmental Offsets Act 2014*.

‘**appropriately qualified person**’ means a person who has professional qualifications, training, skills or experience relevant to the nominated subject matter and can give authoritative assessment, advice and analysis on performance relating to the subject matter using the relevant protocols, standards, methods or literature.

‘**prescribed environmental matters**’ has the meaning in section 10 of the *Environmental Offsets Act 2014*, limited to the Matters of State Environmental Significance listed in schedule 2 of the *Environmental Offsets Regulation 2014*.

Appendices

- Code of environmental compliance for Mining Lease Projects Version 1.1 (EM588)
- Code of environmental compliance for exploration and mineral development projects Version 1.1 (EM586)
