Attention: Mrs Summerville,

Re: Decision made in relation to your transfer application under legislation administered by the Department of Environment and Resource Management (the department).

The department has assessed your application received on 26 December 2010 and wishes to advise you of the following decision:

Permit	Permit Number	Current Mining Tenures	Decision
Level 2 Code Compliant Environmental Authority MIN200492207	MIN200492207	ML95204 ML95093 ML95434 ML95295	Grant transfer of ML95204 from EA MIC200778108 Opaline Pty Ltd to Mrs Allison Summerville EA MIN200492207

Queensland Government

Where the application has been granted, this Notice of Decision and the Code of Environmental Compliance for Mining Lease Projects constitute the new permit documentation. Please retain this approval documentation for your records.

Please note this amendment may require the submission of a new Plan of Operations (PoO) where the amended EA results in inconsistencies with your current PoO. In this instance, an amended PoO is required within 28 days of becoming aware of the inconsistency. Financial assurance requirements may be reviewed at this time.

It should be noted that when an environmental authority is transferred the transferee must, within ten (10) days, give the landowners written notice of the transfer.

Enclosed is a Notice of transfer of an environmental authority to landowners document which must be completed and sent to the mining Registrar at Winton DEEDI within 10 days of receiving this notice of decision.

Please be advised that the Environmental Authority for the transferred/amended tenures does not come into effect until assignment has been granted by Department of Mines and Energy under the *Mineral Resources Act 1989*.

If you require more information, please contact Glenda English, Environmental Officer on (07) 4980 6200.
