Dear Mr Kay

The Department of Environment and Heritage Protection (the department) is reissuing your Environmental Authority (EA) with new permit number **EPSL02105714** to bring the EA into line with current requirements of the *Environmental Protection Act 1994* (the Act). This is in response to your letter dated 4 April 2014 to the department stating you can comply with the standard conditions listed in the department's Code of Environmental Compliance for Mining Leases.

An invoice will be sent in the coming days requiring Cremorne Island Enterprises Pty Ltd to pay annual fees dating back to 1 June 2009 when mining lease (ML) ML70221 was granted. Additionally, please be aware that it is a requirement under the Act to submit a Plan of Operations prior to undertaking any activities on the mining lease.

Should you have any further enquiries, please contact Amelia Sellars on telephone (07) 4999 6980.

Yours sincerely

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority is issued is a restatement of the ERA as defined by legislation at the time the approval is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an environmental authority as to the scale, intensity or manner of carrying out an ERA, then the conditions prevail to the extent of the inconsistency.

An environmental authority authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the authority specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

¹ Permit includes licences, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation

Contaminated land

It is a requirement of the EP Act that if an owner or occupier of land becomes aware a notifiable activity (as defined in Schedule 3 and Schedule 4) is being carried out on the land, or that the land has been, or is being, contaminated by a hazardous contaminant, the owner or occupier must, within 22 business days after becoming so aware, give written notice to the chief executive.
