

Permit

Environmental Protection Act 1994

Environmental authority EPSX00381113

This environmental authority is issued by the administering authority under Chapter 5 of the Environmental Protection Act 1994.

Environmental authority number: EPSX00381113

Environmental authority takes effect on 25-February-2019.

The anniversary date of this environmental authority is 01 March. The payment of the annual fee will be due each year on this day.

Environmental authority holder(s)

Name(s)	Registered address
DINGO MINERALS PTY LTD	Level 7, 43 Franklin Street ADELAIDE SA 5000

Environmentally relevant activity and location details

Environmentally relevant activity/activities	Location(s)
Non-Scheduled - Mining Activity - Exploration Permit Mineral (EPM)	EPM16174

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority (EA) is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out an ERA, the conditions prevail to the extent of the inconsistency.

An EA authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or

- a change in the condition of the contaminated land (notice must be given within 24 hours); or
- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days)

that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website www.qld.gov.au, using the search term 'duty to notify'.

Take effect

Please note that, in accordance with section 200 of the EP Act, an EA has effect:

- a) if the authority is for a prescribed ERA and it states that it takes effect on the day nominated by the holder of the authority in a written notice given to the administering authority - on the nominated day; or
- b) if the authority states a day or an event for it to take effect-on the stated day or when the stated event happens; or
- c) otherwise on the day the authority is issued.

However, if the EA is authorising an activity that requires an additional authorisation (a relevant tenure for a resource activity, a development permit under the *Planning Act 2016* or an SDA Approval under the *State Development and Public Works Organisation Act 1971*), this EA will not take effect until the additional authorisation has taken effect.

If this EA takes effect when the additional authorisation takes effect, you must provide the administering authority written notice within 5 business days of receiving notification of the related additional authorisation taking effect.

If you have incorrectly claimed that an additional authorisation is not required, carrying out the ERA without the additional authorisation is not legal and could result in your prosecution for providing false or misleading information or operating without a valid environmental authority.

Department of the Environment, Tourism, Science and Innovation

This environmental authority has been automatically issued by an electronic system that is approved by the chief executive under section 555 of the *Environmental Protection Act 1994*

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

Conditions of environmental authority

With the exception of any variations, the conditions of approval for this environmental authority are the standard conditions contained within the attached document:

- *Eligibility criteria and standard conditions for exploration and mineral development projects - Version 2 - ESR/2016/1985.*

All reasonable steps must be taken to ensure the activity complies with the eligibility criteria and standard conditions.

Variations to the standard conditions include:

Agency Interest: General conditions

- C1** All reasonable steps must be taken to ensure the activity complies with the eligibility criteria and standard conditions.

Agency Interest: Environmentally Sensitive Areas

- D1** Condition (D1) to Condition (D5) are additional conditions imposed on the environmental authority. If there is any inconsistency between a Standard Environmental Condition in the *Eligibility criteria and standard conditions for exploration and mineral development projects - Version 2 - ESR/2016/1985* and an additional condition, then the additional condition prevails to the extent of any inconsistency.
- D2** Condition (A13) of the *Eligibility criteria and standard conditions for exploration and mineral development projects - Version 2 - ESR/2016/1985* does not apply.
- D3** The holder of this environmental authority is not permitted to conduct mining activities in a **Category B environmentally sensitive area**.
- D4** The activities conducted by the environmental authority holder must not cause any impact, whether directly or indirectly, to a Category B environmentally sensitive area.
- D5** **Significant residual impacts** to prescribed environmental matters are not authorised under this environmental authority or the *Environmental Offsets Act 2014*.

Definitions

Key terms and/or phrases used in this document are defined in this section. Where a term is not defined, the definition in the *Environmental Protection Act 1994*, its regulations or environmental protection policies must be used. If a word remains undefined it has its ordinary meaning.

‘Category B environmentally sensitive area’ is defined in schedule 12 of the *Environmental Protection Regulation 2008*.

‘Prescribed environmental matter’ is defined in section 10 of the *Environmental Offsets Act 1994*, limited to the matters of State environmental significance listed in schedule 2 of the *Environmental Offsets Regulation 2014*.

‘Significant residual impact’ is defined in section 8 *Environmental Offsets Act 2014*.
