## Environmental Protection Act 1994

### Environmental authority EPSX00648413

This environmental authority is issued by the administering authority under Chapter 5 of the Environmental Protection Act 1994.

**Environmental authority number:** EPSX00648413

**Environmental authority takes effect on** 29 February 2024.

The anniversary date of this environmental authority is 2 December each year.

#### Environmental authority holder(s)

| Name(s)                    | Registered address                  |
|----------------------------|-------------------------------------|
| Crater Gold Mining Limited | Level 2, 22 Mount St, PERTH WA 4000 |

#### Environmentally relevant activity and location details

| Environmentally relevant activity/activities                     | Location(s) |
|------------------------------------------------------------------|-------------|
| Non-Scheduled Mining Activity - Exploration Permit Mineral (EPM) | EPM18616    |

#### Additional information for applicants

##### Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority (EA) is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out an ERA, the conditions prevail to the extent of the inconsistency.

An EA authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

##### Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or

- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days) that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website [www.qld.gov.au](http://www.qld.gov.au), using the search term 'duty to notify'.

#### Take effect

Please note that, in accordance with section 200 of the EP Act, an EA has effect:

- a) if the authority is for a prescribed ERA and it states that it takes effect on the day nominated by the holder of the authority in a written notice given to the administering authority – on the nominated day; or
- b) if the authority states a day or an event for it to take effect – on the stated day or when the stated event happens; or
- c) otherwise – on the day the authority is issued.

However, if the EA is authorising an activity that requires an additional authorisation (a relevant tenure for a resource activity, a development permit under the *Planning Act 2016* or an SDA Approval under the *State Development and Public Works Organisation Act 1971*), this EA will not take effect until the additional authorisation has taken effect.

If this EA takes effect when the additional authorisation takes effect, you must provide the administering authority written notice within 5 business days of receiving notification of the related additional authorisation taking effect.

The anniversary day of this environmental authority is the same day each year as the effective date. The payment of the annual fee will be due each year on this day. An annual return will be due each year on 01 April.

If you have incorrectly claimed that an additional authorisation is not required, carrying out the ERA without the additional authorisation is not legal and could result in your prosecution for providing false or misleading information or operating without a valid environmental authority.

### **Obligations under the *Environmental Protection Act 1994***

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

### **Other permits required**

This permit only provides an approval under the *Environmental Protection Act 1994*. In order to lawfully operate you may also require permits / approvals from your local government authority, other business units within the department and other State Government agencies prior to commencing any activity at the site. For example, this may include permits / approvals with your local Council (for planning approval), the Department of Transport and Main Roads (to access State controlled roads), the Department of Resources (to clear vegetation), and the Department of Agriculture and Fisheries (to clear marine plants or to obtain a quarry material allocation).

### **Obligations under the *Queensland Heritage Act 1992***

This permit only provides an approval under the *Environmental Protection Act 1994*. In addition to the requirements found in the conditions of this environmental authority the holder must also meet their obligations under the *Queensland Heritage Act 1992*. For more information on your obligations under this legislation contact the Heritage Branch at [archaeology@des.qld.gov.au](mailto:archaeology@des.qld.gov.au), call 13 QGOV (13 74 68), or visit [www.qld.gov.au/environment/land/heritage/](http://www.qld.gov.au/environment/land/heritage/).

### **Obligations under the *Aboriginal Cultural Heritage Act 2003***

This permit only provides an approval under the *Environmental Protection Act 1994*. In addition to the requirements found in the conditions of this environmental authority the holder must also meet their obligations under the *Aboriginal Cultural Heritage Act 2003*. For more information on your obligations under this legislation contact the Cultural Heritage Unit, Department of Aboriginal and Torres Strait Islander Partnerships at [Cultural.Heritage@dsdatsip.qld.gov.au](mailto:Cultural.Heritage@dsdatsip.qld.gov.au), call 1300 378 401, or visit [www.dsdsatsip.qld.gov.au/](http://www.dsdsatsip.qld.gov.au/).

## Conditions of environmental authority

### General

- G1 With the exception of any variations, the conditions of approval for this environmental authority include the standard conditions contained within the *Eligibility criteria and standard conditions for exploration and mineral development projects – Version 2 – ESR/2016/1985*
- G2 All reasonable steps must be taken to ensure the activity complies with the eligibility criteria and standard conditions.

### Cultural Heritage

- V1 Notwithstanding standard condition A13 of the *Eligibility criteria and standard conditions for exploration and mineral development projects – Version 2 – ESR/2016/1985*, the holder of the environmental authority is authorised to carry out activities up to 25 metres from, but not within, the environmentally sensitive area (ESA) identified as State Heritage Register Place, provided that no environmental harm occurs.
- V2 Notwithstanding standard condition A14 of the *Eligibility criteria and standard conditions for exploration and mineral development projects – Version 2 – ESR/2016/1985*, the holder is authorised to carry out activities up to 25 metres from, but not within, an identified Historical, Archaeological or Ethnographic site within the Croydon Station, Normanton to Croydon Railway (Queensland Heritage Register listing number 600440), the Normanton to Croydon Railway Line (Queensland Heritage Register listing number 600396), the Chinese Temple and Settlement Site (Queensland Heritage Register listing number 602079), the Content Mine (Queensland Heritage Register listing number 602243), the Station Creek Cemetery (Queensland Heritage Register listing number 602375), the Golden Gate Mining and Town Complex (Queensland Heritage Register listing number 645606), Police Reserve Complex (Former) (Queensland Heritage Register listing number 601153), the Croydon State Emergency Services Building (Queensland Heritage Register listing number 600438), and the Old Croydon Cemetery (Queensland Heritage Register listing number 602374).
- V3 An archaeological management plan (AMP) must be developed by an appropriately qualified person prior to commencing on-site activities within the 500 metre buffer of ESAs identified as a State Heritage Place, or within 100 metres of an identified Historical, Archaeological or Ethnographic site. All works must be carried out in accordance with the AMP.

### Matters of State Environmental Significance

- M1 Significant residual impacts to prescribed environmental matters are not authorised on EPM18616 under this environmental authority or the *Environmental Offsets Act 2014*.
- M2 Records demonstrating that each impact to a prescribed environmental matter did not, or is not likely to, result in a significant residual impact to that matter must be:
- a) completed by an appropriately qualified person; and
  - b) kept for the life of the environmental authority.

### Definitions

Key terms and/or phrases used in this document are defined in this section and the *Eligibility criteria and standard conditions for exploration and mineral development projects – Version 2 – ESR/2016/1985*. Where a term is not defined, the definition in the *Environmental Protection Act 1994*, its regulations or environmental protection policies must be used. If a word remains undefined it has its ordinary meaning

**‘appropriately qualified person’** means a person who has professional qualifications, training, skills or experience relevant to the nominated subject matter and can give authoritative assessment, advice and analysis on performance relating to the subject matter using the relevant protocols, standards, methods or literature

**‘prescribed environmental matters’** has the meaning in section 10 of the *Environmental Offsets Act 2014*, limited to the matters of State environmental significant listed in schedule 2 of the *Environmental Offsets Regulation 2014*.

**‘significant residual impact’** has meaning in section 8 of the *Environmental Offsets Act 2014*.

**END OF ENVIRONMENTAL AUTHORITY**
