

Permit

Environmental Protection Act 1994

Environmental authority EPVL00187713

This environmental authority is issued by the administering authority under Chapter 5 of the Environmental Protection Act 1994.

Environmental authority number: EPVL00187713

Environmental authority takes effect on 07 October 2014. This is the take effect date.

The anniversary date of this environmental authority is 22 February. The payment of the annual fee will be due each year on this day.

Environmental authority holder(s)

Name(s)	Registered address
DG EUREKA PTY LTD	Unit 4, 290 Bourbong St BUNDABERG WEST QLD 4670

Environmentally relevant activity and location details

Environmentally relevant activity/activities	Location(s)
Non-Scheduled - Mining Activity - Mining Lease (ML)	ML1180

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority (EA) is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out an ERA, the conditions prevail to the extent of the inconsistency.

An EA authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or

- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days)

that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website www.qld.gov.au, using the search term 'duty to notify'.

Take effect

Please note that, in accordance with section 200 of the EP Act, an EA has effect:

- a) if the authority is for a prescribed ERA and it states that it takes effect on the day nominated by the holder of the authority in a written notice given to the administering authority - on the nominated day; or
- b) if the authority states a day or an event for it to take effect-on the stated day or when the stated event happens; or
- c) otherwise on the day the authority is issued.

However, if the EA is authorising an activity that requires an additional authorisation (a relevant tenure for a resource activity, a development permit under the *Planning Act 2016* or an SDA Approval under the *State Development and Public Works Organisation Act 1971*), this EA will not take effect until the additional authorisation has taken effect.

If this EA takes effect when the additional authorisation takes effect, you must provide the administering authority written notice within 5 business days of receiving notification of the related additional authorisation taking effect.

The anniversary day of this environmental authority is 22 February unless you apply to change the anniversary day. The payment of the annual fee will be due each year on this day.

If you have incorrectly claimed that an additional authorisation is not required, carrying out the ERA without the additional authorisation is not legal and could result in your prosecution for providing false or misleading information or operating without a valid environmental authority.

Department of the Environment, Tourism, Science,
and Innovation
Delegate of the administering authority
Environmental Protection Act 1994

Privacy statement

Pursuant to section 540 of the EP Act, the Department is required to maintain a register of certain documents and information authorised under the EP Act. A copy of this document will be kept on the public register. The register is available for inspection by members of the public who are able take extracts, or copies of the documents from the register. Documents that are required to be kept on the register are published in their entirety, unless alteration is required by the EP Act. There is no general discretion allowing the Department to withhold documents or information required to be kept on the public register. For more information on the Department's public register, search 'public register' at www.qld.gov.au. For queries about privacy matters please email privacy@detsi.qld.gov.au or telephone 13 74 68.

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

Other permits required

This permit only provides an approval under the *Environmental Protection Act 1994*. In order to lawfully operate you may also require permits / approvals from your local government authority, other business units within the department and other State Government agencies prior to commencing any activity at the site. For example, this may include permits / approvals with your local Council (for planning approval), the Department of Transport and Main Roads, the Department of Natural Resources and Mines, Manufacturing and Regional and Rural Development (to clear vegetation), and the Department of Primary Industries (to clear marine plants or to obtain a quarry material allocation).

Obligations under the *Mining and Quarrying Safety and Health Act 1999*

If you are operating a quarry, other than a sand and gravel quarry where there is no crushing capability, you will be required to comply with the *Mining and Quarrying Safety and Health Act 1999*. For more information on your obligations under this legislation contact Mine Safety and Health at www.nrmmrdd.qld.gov.au, or phone 13 QGOV (13 74 68) or your local Mines Inspectorate Office.

Environmental authority EPVL00187713

Conditions of environmental authority

- With the exception of any variations the conditions of approval for this environmental authority are as per the attached schedule of conditions:

Location: ML1180

Environmentally Relevant Activity: Mining

Environmental authority EPVL00187713

Schedule of conditions

This environmental authority consists of the following schedules of conditions relevant to various issues:

- Schedule A – General conditions
- Schedule B – Additional conditions for Environmentally Sensitive Areas

Schedule A – General conditions

- (A1) The conditions of this environmental authority are in force until a surrender of the authority is accepted pursuant to the *Environmental Protection Act 1994*. The conditions apply unless an amendment is approved pursuant to the *Environmental Protection Act 1994*.
- (A2) The environmental authority holder is to give the administering authority a financial assurance in the amount and form and at a time required by the administering authority.
- (A3) The environmental authority holder must comply with each of the Standard Environmental Conditions contained in the *Code of Environmental Compliance for Mining Lease Projects* dated January 2001.

END OF CONDITIONS FOR SCHEDULE A

Schedule B – Additional conditions for Environmentally sensitive areas

- (B1) The holder of the environmental authority is authorised to carry out standard mining activities on the relevant mining lease within 2 km of, but not in, a Category A Environmentally Sensitive Area and within 1 km of, but not in, a Category B Environmentally Sensitive Area provided that activities do not cause any significant environmental harm¹. Refer to the attached map.

¹Important Note to Condition (B1)

Environmentally sensitive areas identified within and adjacent to ML 1180 are listed in the table below.

Category	Land Area Classification	General location	Who to contact
A	Burrans National Park	Refer to attached map.	EPA District Manager Southern Region POBox 101 Maryborough QLD 4650
B	Fish Habitat Area	Refer to attached map.	EPA District Manager Southern Region PO Box 101 Maryborough QLD 4850

¹Important Note to Condition (B1)

Environmental authority EPVL00187713

Condition B1 is a condition that overrides the Standard Environmental Condition (SEC) 14 to the extent that SEC14 prohibits the holder of the environmental authority carrying out mining activities within 2 km of a Category A Environmentally Sensitive Area or within 1 km of an Category B Environmentally Sensitive Area.

END OF CONDITIONS FOR SCHEDULE B
