## CONDITIONS OF ENVIRONMENTAL AUTHORITY

### General Permit Condition

#### Agency Interest: Biodiversity

PB1 Schedule B Additional conditions

(B1) The holder of the Environmental Authority must consult with the Environmental Protection Agency to identify the specific values that must be preserved within the area identified as an Endangered Regional Ecosystem 1,2 and

PB2 (B2) The Environmental Authority holder must consult with the Environmental Protection Agency prior to commencing rehabilitation to determine the most appropriate techniques for the specific area.

PB3 Important Note to Condition (B1)

Condition B1 is a condition that overrides the Standard Environmental Condition (SEC) 14 to the extent that SEC 14 prohibits the holder of the environmental authority carrying out mining activities in or within 1km of a Category B Environmentally Sensitive Area (Endangered Regional Ecosystem).

Important Note to Condition (B1)

Environmentally Sensitive Areas identified in and adjacent to ML 1044 and ML 1045 are listed in the table below.

| Category   | Land Area classification                                                        | General location                                    | Who to contact                                                                                                         |
