

Environmental authority EPVL02549814

This environmental authority is issued by the administering authority under Chapter 5 of the Environmental Protection Act 1994.

Environmental authority number: EPVL02549814

Environmental authority takes effect on 27 March 2019

Environmental authority holder(s)

Name(s)	Registered address
PETER CAMPBELL EARTHMOVING PTY LTD	FCO Accountants Level 1/74 Ashmore Road BUNDALL QLD 4217

Environmentally relevant activity and location details

Environmentally relevant activity/activities	Location(s)
Non-Scheduled Mining Activity Mining Lease - ML	ML70069
Non-Scheduled Mining Activity Mining Lease - ML	ML1974

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority (EA) is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out an ERA, the conditions prevail to the extent of the inconsistency.

An EA authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or
- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days);

that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website www.qld.gov.au, using the search term 'duty to notify'.

Take effect

Please note that, in accordance with section 200 of the EP Act, an EA has effect:

- a) if the authority is for a prescribed ERA and it states that it takes effect on the day nominated by the holder of the authority in a written notice given to the administering authority-on the nominated day; or

- b) if the authority states a day or an event for it to take effect-on the stated day or when the stated event happens; or
- c) otherwise-on the day the authority is issued.

However, if the EA is authorising an activity that requires an additional authorisation (a relevant tenure for a resource activity, a development permit under the *Sustainable Planning Act 2009* or an SDA Approval under the *State Development and Public Works Organisation Act 1971*), this EA will not take effect until the additional authorisation has taken effect.

If this EA takes effect when the additional authorisation takes effect, you must provide the administering authority written notice within 5 business days of receiving notification of the related additional authorisation taking effect.

If you have incorrectly claimed that an additional authorisation is not required, carrying out the ERA without the additional authorisation is not legal and could result in your prosecution for providing false or misleading information or operating without a valid environmental authority.

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

Conditions of environmental authority

~~With the exception of any variations, the conditions of approval for this environmental authority are the standard conditions contained within the attached document:~~

- ☐ Code of environmental compliance for mining lease projects (Version 0) (EM588)

All reasonable steps must be taken to ensure the activity complies with the eligibility criteria and standard conditions.

Schedule A – General conditions

- (A1) The conditions of this environmental authority are in force until a surrender of the authority is accepted pursuant to the *Environmental Protection Act 1994*. The conditions apply unless an amendment is approved pursuant to the *Environmental Protection Act 1994*.
- (A2) The environmental authority holder is to give the administering authority a financial assurance in the amount and form and at a time required by the administering authority.
- (A3) The environmental authority holder must comply with each of the Standard Environmental Conditions contained in the Code of *Environmental Compliance for Mining Lease Projects dated January 2001*.

Schedule B – Additional Conditions

- (B1) The holder of this environmental authority is authorised to carry out standard mining activities on the relevant mining leases despite the occurrence of endangered regional ecosystems (a Category B Environmentally Sensitive Area).
- (B2) In regards to complying with Standard Environmental Conditions 35, the holder of the environmental authority must consult with the Environmental Protection Agency to:
 - i. Identify the specific values that must be preserved within areas identified as an Endangered Regional Ecosystem and
 - ii. Agree on the plant species that are to be used to revegetate the areas to those identified specific values.

Schedule C – Matters of State Environmental Significance

- (C1) Significant residual impacts to prescribed environmental matters are not authorised in ML70069 under this environmental authority or the *Environmental Offsets Act 2014*.
- (C2) Records demonstrating that each impact to a prescribed environmental matter did not, or is not likely to, result in a significant residual impact to that matter must be:
 - a) completed by an appropriately qualified person; and
 - b) kept for the life of the environmental authority.

Permit

Permit
Environmental authority EPVL02549814

Definitions:

Appropriately qualified person: means a person who has professional qualifications, training, skills or experience relevant to the nominated subject matter and can give authoritative assessment, advice and analysis on performance relating to the subject matter using the relevant protocols, standards, methods or literature.

Designated Precinct: As defined in the *Regional Planning Interests Regulation 2014*.

Prescribed environmental matters: has the meaning in section 10 of the Environmental Offsets Act 2014, limited to the matters of State environmental significance listed in schedule 2 of the Environmental Offsets Regulation 2014.

Strategic Environmental Area: As defined in the *Regional Planning Interests Regulation 2014*. **Significant residual impact** is defined in section 8 *Environmental Offsets Act 2014*.
