

Permit

Environmental Protection Act 1994

Environmental authority EPVL04258216

Under Chapter 5 of the Environmental Protection Act

Environmental authority number: EPVL04258216

Environmental authority takes effect on 1 December 2020

Environmental authority holder(s)

Name(s)	Registered address
Aurum Vale Pty Ltd	33 Elkhorn Avenue, Surfers Paradise, QLD, AUSTRALIA 4217

Environmentally relevant activity and location details

Environmentally relevant activity/activities	Location(s)
Resource Activity, Non-Scheduled, Mining Activity, Mining Lease – ML	ML20469 ML20470 ML20582
Resource Activity, Non-Scheduled, Mining Activity, Exploration Permit Mineral – EPM	EPM27721

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority is issued is a restatement of the ERA as defined by legislation at the time the approval is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an environmental authority as to the scale, intensity or manner of carrying out an ERA, then the conditions prevail to the extent of the inconsistency.

An environmental authority authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the authority specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

Environmental authority EPVL04258216

Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or
- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days) that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website www.qld.gov.au, using the search term 'managing contaminated land'.

Take effect

Please note that, in accordance with section 200 of the EP Act, an EA has effect:

- a) if the authority is for a prescribed ERA and it states that it takes effect on the day nominated by the holder of the authority in a written notice given to the administering authority-on the nominated day; or
- b) if the authority states a day or an event for it to take effect-on the stated day or when the stated event happens; or
- c) otherwise-on the day the authority is issued.

However, if the EA is authorising an activity that requires an additional authorisation (a relevant tenure for a resource activity, a development permit under the *Sustainable Planning Act 2009* or an SDA Approval under the *State Development and Public Works Organisation Act 1971*), this EA will not take effect until the additional authorisation has taken effect.

If this EA takes effect when the additional authorisation takes effect, you must provide the administering authority written notice within 5 business days of receiving notification of the related additional authorisation taking effect.

If you have incorrectly claimed that an additional authorisation is not required, carrying out the ERA without the additional authorisation is not legal and could result in your prosecution for providing false or misleading information or operating without a valid environmental authority.

Dean Sharpe
Department of Environment and Science
Delegate of the administering authority
Environmental Protection Act 1994

Date issued: 01 December 2020

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

Environmental authority EPVL04258216

Part 1. Conditions of environmental authority – ML20469, ML20470 and ML20582

The following conditions are applicable to mining activities carried out on ML 20469, ML20470, ML20582.

With the exception of any variations, the conditions of approval for this environmental authority include conditions contained within the attached document(s) entitled:

- Eligibility criteria and standard conditions for mining lease activities (WSR/2016/2241)

Agency Interest: General

- G1 The environmental authority does not take effect until the grant of the tenure to the environmental authority holder, or until each environmental authority holder has become a holder, under the *Mineral Resources Act 1989*, of each of the relevant mining tenements.
- G2 The conditions of this environmental authority are in force until a surrender of the authority is accepted pursuant to the *Environmental Protection Act 1994*. The conditions apply unless an amendment is approved pursuant to the *Environmental Protection Act 1994*.
- G3 **Financial Assurance**
- The environmental authority holder is to give the administering authority a financial assurance in the amount and form and at a time required by the administering authority.
- G4 The environmental authority holder must comply with the Standard Environmental Conditions contained in the Eligibility criteria and standard conditions for mining lease activities 2016.

Agency Interest: Heritage

- B1 Notwithstanding condition G4 the holder of the environmental authority is authorised to carry out mining activities within 1km but not within 800m of a category B Environmentally Sensitive Area (Groganville Township) provided that the activities do not cause any environmental harm to the area.

Part 2. Conditions of environmental authority – EPM27721

The following conditions are applicable to mining activities carried out on EPM27721.

General

- G5 With the exception of any variations, the conditions of approval for this environmental authority are standard conditions contained within the document entitled *Eligibility criteria and standard conditions for exploration and mineral development projects (ESR/2016/1985)*
- G6 Where there is a discrepancy between a standard condition and a condition of this environmental authority, the environmental authority condition applies.

Environmental authority EPVL04258216

Land

- V1 The environmental authority holder must not cause a significant residual impact to any prescribed environmental matter as defined in the *Environmental Offsets Act 2014*.
- V2 Records demonstrating that each impact to a prescribed environmental matter did not, or is not likely to, result in a significant residual impact to that matter must be:
- a) completed by an appropriately qualified person; and
 - b) kept for the life of the environmental authority.

Definitions

Key terms and/or phrases used in **Part 2** of this document are defined in this section and the *Eligibility criteria and standard conditions for exploration and mineral development projects (ESR/2016/1985, Version 2.00, Effective 31 MAR 16)*.

Where a term is not defined, the definition in the *Environmental Protection Act 1994*, its associated regulations or environmental protection policies must be used. If a word remains undefined it has its ordinary meaning.

‘significant residual impact’ is defined under section 8 of the *Environmental Offsets Act 2014*.

‘appropriately qualified person’ means a person who has professional qualifications, training, skills or experience relevant to the nominated subject matter and can give authoritative assessment, advice and analysis on performance relating to the subject matter using the relevant protocols, standards, methods or literature.

‘prescribed environmental matter’ has the meaning in section 10 of the *Environmental Offsets Act 2014*, limited to the Matters of State Environmental Significance listed in schedule 2 of the *Environmental Offsets Regulation 2014*.
