Brian Wallace	37 Anzac Avenue MAREEBA QLD 4880

Environmentally relevant activity and location details

Environmentally relevant activity/activities	Location(s)
Mining - EPM	EPM13944 EPM26405

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an EA is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out the ERA, the conditions prevail to the extent of the inconsistency.

An EA authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

DS

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or
- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days)

that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website www.qld.gov.au, using the search term 'duty to notify'.

Take effect

Resource projects

Please note that, in accordance with section 200 of the EP Act, if the EA is for a resource activity, the EA will not take effect until the relevant tenure is granted to the applicant.
