Dear Director(s),

Take notice: That under the *Environmental Protection Act 1994* (the Act), this environmental enforcement order (EEO) is issued to Ranger Energy Pty Ltd (ACN 003 356 572) and Kestrel Petroleum Pty Ltd (ACN 108 530 589) (you) by the administering authority. The administering authority is the Chief Executive of the Department of the Environment, Tourism, Science, and Innovation (the department). The EEO is issued with respect to the activities of Ranger Energy Pty Limited and Kestrel Petroleum Pty Ltd on land described as Petroleum Lease (PL) 46 situated at Fairymount Oil Field (the premises).

Under section 24AA of the *Acts Interpretation Act 1954*, the power to make an instrument under an Act includes the power to amend the instrument. This EEO was originally issued on 9/4/2025 and has been amended pursuant to s24AA. New text in the varied notice is shown as underlined and deleted text is shown as strikethrough. The original EEO remained in force until it was replaced by this EEO on 27/2/2026.

A. Grounds

This EEO is issued on the following grounds:

1. In accordance with section 359(e)(ii), the department requires you to take reasonable measures to secure compliance with the following condition of environmental authority EPPG00770513 (the EA) dated 5 September 2013: **Condition A9** -

The holder of this environmental authority must:

- (a) *Provide to the administering authority financial assurance in the amount and form required from time to time by the administering authority; and*
- (b) *Review and maintain the amount of financial assurance based on the maximum disturbance from the proposed and existing petroleum activity(ies).*

The facts and circumstances forming the basis for these grounds are:

1. Ranger Energy Pty Limited and Kestrel Petroleum Pty Ltd are the holders of environmental authority EPPG0770513 (the EA) effective 5 September 2013.
2. The EA provides Ranger Energy Pty Limited and Kestrel Petroleum Pty Ltd authorisation and obligations in relation to activities carried out under the Act on the petroleum tenure known as Petroleum Lease (PL) 46.
3. The Resource Authority Public Report for PL 46 indicates that at this time the tenure continues, with an expiration date of 23 February 2025 (pending replacement tenure application) — Ranger Energy Pty Limited held 50% share of the tenure, with Kestrel Petroleum Pty Ltd holding equal share.
4. The department is satisfied that you are the entity operating petroleum lease PL46 and are responsible for the construction, operation, maintenance, and rehabilitation of PL46 under the EA.
5. On 6 November 2014, the department issued you a decision notice on the amount and form of Financial Assurance (FA) required for EPPG0770513. The notice states: *'the amount of financial assurance to be paid is \$645,000.00 in the form of an unconditional, irrevocable and on demand bank guarantee.'* The notice required lodgement of FA by 5 December 2014.
6. On 11 October 2016, the department contacted Ranger Energy Pty Limited regarding outstanding Financial Assurance, to which the department received no response.
7. On 1 April 2019 the commencement of the *Mineral and Energy Resources (Financial Provisioning) Act 2018* came into effect which replaced the financial assurance arrangements under the *Environmental Protection Act 1994* with the Financial Provisioning Scheme (FPS) based on an estimated rehabilitation cost (ERC).
8. Amendments were included in the *Environmental Protection Act 1994* to enable the transition of financial assurance decisions to ERC decisions.
9. Section 761 of the *Environmental Protection Act 1994* provides that from 1 April 2019, the ERC decision for EPPG0770513 was taken to be the FA amount of \$645,000.00 and the ERC decision period ended on 1 April 2022.
10. On 7 August 2024, the department issued a Formal Warning to Ranger Energy and Kestrel Petroleum for breach of EA condition A9.
11. On 26 August 2024, Ranger Energy Pty Limited submitted an application for ERC, which was invalidated on 9 September 2024.
12. On 21 March 2025, the department received an estimated rehabilitation cost application from Ranger Energy Pty Limited for environmental authority, EPPG00770513.
13. The department has found the application to not address the application information requirements pursuant to section 298 of the *Environmental Protection Act 1994*. As a result, you were issued an invalid notice on 4 April 2025.
14. A search of department records identified that no FA has been lodged, and no valid ERC application has been received for EA EPPG0770513.

15. Queensland Treasury has also confirmed that no surety is held against EA EPPG0770513 under the FPS.
16. Section 758(3) of the *Environmental Protection Act 1994* provides that if the administering authority had given the EA holder notice under the pre-amended Act (s296) about the amount and form of FA required under a condition of the EA and the holder has not complied with the condition before commencement, the condition continues to have effect until the FA has been given. As such, condition A9 of EA EPPG0770513 remains in effect.
17. Section 430(3) of the *Environmental Protection Act 1994* makes it an offence for a person to contravene a condition of an environmental authority.
18. You have not demonstrated compliance with condition A9 of EA EPPG0770513 as the financial assurance amount (now taken to be ERC) has not been provided.
19. The department considers it is necessary to require you to take reasonably practicable measures to comply with your EA conditions.
20. The delegate has considered the circumstances (including the standard criteria and human rights) and determined that the required actions are reasonable to remedy or otherwise address the relevant matters.
