

Letter

Environmental Protection Act 1994

Finalisation of an Environmental Enforcement Order

Pursuant to section 362

Zedemar Holdings Pty Ltd [ACN 105 008 026]
1-5 Whiting Street,
ARTARMON NSW 2064

Your reference: EPML00594013

Our reference: STAT- E-100891803

TAKE NOTICE: that on Friday, 11 July 2025 under the *Environmental Protection Act 1994* (the Act) the administering authority issued an environmental enforcement order (EEO) to Zedemar Holdings Pty Ltd (you). You were issued an amended EEO on 18 July 2025. The administering authority is the Chief Executive of the Department of the Environment, Tourism, Science and Innovation (the department).

The EEO, and its amendment, were issued in respect to the resource activity on land described as ML4712 situated at Coopers Road, Willowbank QLD 4306 (the premises).

A. Requirements

The amended requirements of this EEO were:

1. **Immediately on receipt of this notice**, you must ensure that ~~all resource activities, including the receipt and composting of material,~~ the following activities, each being a resource activity, cease on ML4712—
 - (a) the winning or processing of minerals;
 - (b) the management of wastes arising from the winning or processing of minerals; and
 - (c) the receipt of organic material for composting.
2. You **must not** recommence any ~~resource~~ activity listed in Requirement 1 of this order until you hold an ERC decision for the activity at ML4712.
3. By **close of business on Monday 28 July 2025**, you must submit an ERC application to the administering authority as per the requirements under the Act.
4. If an ERC decision is not in effect for the resource activity by **Tuesday 28 October 2025**, you must by no later than **Friday 28 November 2025**, do one or more of the following with all stockpiled compost material—
 - (a) integrate it into the topsoil of ML4712 in accordance with the rehabilitation requirements and Rehabilitation Plan for the mining tenement [including having regard, for example, to all relevant principles of environmental management including appropriate loading rates, protection of water quality]; or

- (b) remove the material from ML4712 to a facility that is licensed to accept the material for disposal or processing, keeping records of the total amount of material moved each day, the destination of the material, and how it is to be processed or disposed.

B. Compliance with the requirements

In determining compliance with these requirements of the EEO, the department has considered that:

- A formal warning was issued to the operator under section 369A(2) of the Environmental Protection Act 1994 for non-compliance with Requirement 1 of EEO STAT- E-100891803, due to processing of minerals on the premises.
- The operator has cooperated throughout the compliance process by providing timely responses to departmental enquiries, being transparent during the site inspection, and demonstrating willingness to consider and implement further improvements.
- The department considers that the information submitted for the ERC decision was sufficient and the key issue under the EEO has been substantively addressed.

C. Obligations

The department has determined that you have satisfied the requirements of the EEO. Accordingly, this letter serves as a notice that this EEO is finalised and no longer in effect.

You are reminded of the responsibility to comply with conditions contained in Environmental Authority EPML00594013, and duties under the Act.

D. Issued by

Andrew Crane
Principal Environmental Officer
Delegate of the Administering Authority
Dept of the Environment, Tourism, Science and Innovation
