Notice

Environmental Protection Act 1994

Notice of decision - Temporary emissions licence

This statutory notice is issued by the administering authority pursuant to section 357E of the Environmental Protection Act 1994, *to advise you of a decision or action.*

Our reference: ENEL04678913

To: RTA Yarwun Pty Ltd
975 Hanson Road
Yarwun, QLD 4680

Attention: Jonathon Dalton

Application for temporary emissions licence (TEL) for release of decant/stormwater from the southern area dam at the RTA Yarwun Residue Storage Facility.

Thank you for your application for a temporary emissions licence. Your application, which was received by this office on 28 February 2013 at 3:06pm, has been granted as submitted.

This temporary emissions licence commences on 1 March 2013 at 10:30am and ends on 31 March 2013.

The licence permits the following emission

The temporary emission licence authorises the release of approximately 750,000m^3 of decant/stormwater from the southern dam at the RMA to gravel creek to achieve an RL of 74m.

The licence overrides the following conditions of approval number SPDE04134712

The TEL overrides the following conditions as they apply to release point W4 and the RMA discharge authorised by this temporary emission licence.

Permitted Contaminant Release and Discharge Point(s)

(C2) Contaminant(s) mentioned in schedule C of this development approval must only be released directly or indirectly to waters at the locations mentioned in Schedule C - Table 1 (Contaminants, sources and locations for releases to waters) and in accordance with the contaminant release conditions and limits in Schedule C - Table 2 (Release limits and monitoring).

(C8) There must be no discharge of contaminants from the Reside Management Area Dam (RMD) to waters except the seawater return line discharge released to waters from discharge location W1.

Release Monitoring

(C13) Monitoring of contaminants released to waters and water quality must be undertaken for the quality characteristics and parameters, at the monitoring point(s), and at the frequencies specified in Schedule C - Table 2 (Release limits and monitoring).

Stormwater Management

(C29) There must be no release of stormwater that has been in contact with any contaminants at the site to any waters, other than in accordance with the conditions of this development approval

The following conditions apply to this licence:

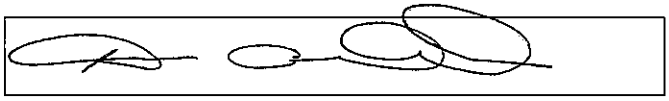

1. RTA Yarwun must comply with all commitments including monitoring and reporting commitments made in the Application for Temporary Emissions Licence dated 28.2.2013.

2. All releases pursuant to this TEL must be undertaken in accordance with the conditions referenced in section titled 'release conditions' in the Application for Temporary Emissions Licence dated 28.2.2013.

3. After the cessation of discharge and release Gravel Creek RTAY must assessed for the impact of the implementation of this TEL, and undertake actions to rehabilitate the creek and/or prevent ongoing environmental harm if necessary. The assessment must be made available to the administering authority.

4. Total Suspended Solids must be monitored every Monday, Wednesday and Friday at the site boundary (W4).

Should you have any queries in relation to this notice, Alana Coates on telephone 07 49716523 would be happy to assist you.
